WELCOME

The International Protective and Security Academy™ (PSA-Academy™) is private, independent educational institute was established with the purpose of providing professional training for defence and security personnel in all areas of society.

Founder and the instructors are fully committed to the cause and worked for a long time as highly trained, internationally recognized security and anti-terrorist professionals, experts, consultants, and trainers.

The goal of PSA is to train protective specialist, high leaders and instructors, who not only accomplish their tasks but due to there high level of training and live experience they can organize and coordinate different security duties and can think in complex protective system.

Those who attend our special courses and seminars will receive up to date, and modern practical and not only theoritical knowledge, futhermore there own practical experiance will help there future employer , and due to there high level of skills they can also be employed to the govermental and also the civilian sector.

Our clients include both government agencies involved in a broad range of national security issues (law enforcement, intelligence, defense, homeland security) and private sector corporations, who either work in these same fields or who are interested in improving the capabilities of their analysts in general.

This example includes the Security Managers, employed by governmental agencies or private firms, Private Investigators, and VIP'S Bodyguards and others special areas.

PSA-Academy™ offers one of the best cutting edge of reality based training system as well as the high level of knowledge and skills for those seeking for professional studies to upgrade their professional abilities and the effectiveness function at their organization.

Founder

Mr. Norbert Csikany MSc

The founder was born and raised in Hungary.

The founder's security and Martial Artist career has started in Europe. At a young age, after finishing his basic education he applied to both Military and Law Enforcement School.

He has continued to study safety/security and anti/counter-terrorism to a high level in Hungary, Russia, Netherlands, United Kingdom, USA and Israel and has earned the reputation to be a highly qualified expert in security and anti-terrorism.

He has more than 15 years' experience in the areas of VIP protection, intelligence and anti-terrorism and he

has more than 30 years' experience of martial arts, close combat and self-defense.

He has obtained a diploma as a "International Safety Expert and Protection Specialist" with the accomplishment of additional training as well as attended trainings which was organized by NATO, where at the end of his military training he has received a degree from the Royal Netherlands Marine Corps, which attests him as an international SWAT trainer and instructor.

He is a international qualified military and police instructor. He's love for Martial Arts styles began in 1982, which is still practicing it to the present day. In 1995 after experiencing the military close combat system krav-maga (Israeli), jutsey-kyoksul (Korean) and Systema (Russian) he started to study these styles. Today he is a well experienced instructor of these military close combat systems.

He has worked in Iraq, Afghanistan and Africa. Due to the situation reigning in these countries and other areas of anti-terrorist operations.

TACTICAL CLOSE COMBAT TRAINING SYSTEM

The founder has developed and prepared an international recognized special psychology-based education method The Tactical Close Combat Training System™ - (TCCS) and training materials for the police, military and personal protective professionals. His specialty is teaching this method for police & military, special units as well as highly qualified Bodyguards and Security personal in private and government sector in all around of world.

INTERNATIONAL BODYGUARD AND SECURITY SERVICES ACCOCIATION

He has earned a high position in "IBSSA - International Bodyguard and Security Services Association, which he is a member, Chief instructor and security expert in this international organization, and at the same time, he is the representative and CEO of the "IBSSA-UK".

TEACHER

He is the representative and/or Chief Instructor of the following international organization in the UK:

- "International Academy of Executive Protective Agents - USA"
- Law Enforcement Trainers Federation
- He is official Master teacher of Alfa & Omega Security Academy—Romania"
- and He guest lecturer at several places.

OWNER

Owner of the fast developing consortium PSA International Group™ which encompasses several vibrant training and security services companies.

The PSA International Company Group™ is offer one of the best cutting edge of Personal Protection & Security Service and Special Defence and Security Training Provider for several military and government agencies and UN but it is working in the private security industry too in worldwide. Also member of the group The Defence and Security Technology Development Centre™ too. The Centre purpose to develop of the special designed special military and defence equipments and safety technology systems, what primarily will be use of the military and law enforcement agencies in special areas and war zones in worldwide.

TRAINING CENTRE

Due to the individual law systems of european countries the international educational institute of PSA Academy™ can do courses and training in eastern european countries. PSA-Academy™ also has training headquarters and training bases and self defense training centers. If there is a given number of students there can be continuous residential trainings in varios themes of Firearms, law enforcement, security, close protection and self defense trainings boot camps, instructor trainings, and also the famous FBI mental tactical stress training in our own well equipped tactical house with camera system.

The Centre use state of the art training equipment which is used for special law enforcement units and military training for special training purposes, such as the Simunition FX® weapons and Protector System or ShockKnife® and REDMAN® protective gear as well as law enforcement marksmanship training simulator and other equipment too.

The PSA gives the opportunity for other institutions, training companies and instructors in this field , to rent our facilities and equipment for their own trainings through a PSA delegate. Further more (in advance) there is an opportunity for the requisitioning / hiring of the professional knowledge of the PSA teaching staff when agreed in advance about the fees and fundings. Therefore there is a window of opportunity for many institution and organizations to recive education from accredited professional teachers which is the most efficient educational method to recive high level of education of the profession, to give recognized trainings and cert. to your own company or organizations courses.

Facilities of training facility:

- Shooting range
- Tactical house with equipment
- Shooting Video Simulator System
- Hotel accomodation (military style) for 25 persons
- dining facility
- conference hall for 15 to 100 persons
- classrooms
- Boxing and Martial arts room with Tatami and other martial art's training equipment
- Gym
- Football area
- Photocopying, printing
- Washing machine
- and more

This makes PSA's european training center a one-stop service where You can eat, sleep and train in one location.

Shooting range

The Academy's firearms training is provided mainly in our European Educational and Training Centre in Hungary and in the ex-Eastern block countries, as well as USA, because of the difficulties of the British Laws.

The range areas are various and it is possible to carry out shooting courses from an 8-10 personnel up to a 30-40 group.

The shooting ranges provide various opportunities for different type of shooting, such as: small arms, shotgun, automatic and precision rifle training. The choice of shooting range is dependent on the requirements of the training or contractor and the type of the specific training.

TRAINING CENTRE

Tactical or Killer house with FBI stress program

During our trainings we use a specially designed building, divided by rooms and corridors, the 'Tactical House'. The designs of the rooms are created based on the requirements of the contractor and the type of the training. In this way each group may focus on their specific life situations applied in a training exercise.

For the training we use a specially designed simulation weapon and FX Protection gear®. With the combination of environment, the program and the special weapons used, we create an extreme stress level situation.

The other part of the program is the 'Extreme Stress Program'. This program is based on a hard psychological base, and has been designed for elite forces, FBI agents, etc.

Such knowledge and experience gathered this way is deeper, lasts longer and in real life situations are much more functional than any other training method.

Assault area

At PSA Academy assault course training areas are usually in large areas conducive to training needs. These areas are suitable for smaller or bigger group exercises.

The building size and levels are different. Also the rooms, corridors and staircases and it provide a great opportunity to practice urban warfare, the breaking in and out of a building, etc. These areas are also good to carry out complex personal protection trainings.

For tactical movement and clearing training we use paintball or air soft weapons, and protective gears.

Besides doing professional trainings, this sector is also preferable for team building trainings as well.

Team building is about taking steps to ensure that your work colleagues learn how to recognise, value & ultimately harmonise with the strengths & abilities of the people they work with.

The training can help you to observe and develop the following traits within the individuals in your organisation.

- Decision making
- Planning
- Rapid reaction
- Teamwork
- Effective use of resources & time
- Crisis management
- Leadership

Interactive video shooting simulator

Law enforcement training simulator effectively supports marksmanship and judgmental training needs of law enforcement, military and security personnel. The single screen configuration includes both marksmanship training and video training modes to provide a multi-tiered training program. Marksmanship training ranges from basic to advanced, and judgmental training enhances the understanding of shoot/don't shoot situations and the corresponding decision making process.

QUALIFICATIONS

PSA Academy organizes courses which are accredited by the following organizations:

- [Skills for Security](#)
- [Edexcel](#)
- [CIEH](#)
- [NOCN](#)
- [BIAB](#)
- [NUCO](#)
- [EFR](#)
- [MAYBO](#)
- [BAC](#) (British Accreditation Council)
- [HSE](#) (Health and Safety Executive)

Our training realistic, professional and high quality based which exceeds SIA's requirement system. Our training programs accreditation by the [SIA](#) (Security Industry Authority) and recognized over 120 countries worldwide.

All courses and qualifications will be done (same thematic) according to the rules set by PSA Education and Qualification Department. If more detailed information is required please contact PSA Headquarters.

EXECUTIVE TRAININGS WITHIN THE SECURITY INDUSTRY

Company Profile

The International Protective and Security Academy™ (PSA-Academy™) was established with the purpose of providing professional training for defence and security personnel in all areas of society.

PSA-Academy™ provides training services to allied nations, governments and NGOs. We are world-leading experts in security training and provide a comprehensive procurement and logistic service, risk analysis and personal security.

Our success and reputation has grown from understanding and fulfilling our client's requirements.

Management Team

PSA-Academy™ was formed in 2004 and from its inception the focus has been to establish a Company that provides the perfect training solution at all levels.

The Academy's faculty consists of former senior executives from several national Security Agencies and Law Enforcement and Military forces, including the major intelligence agencies too, such as : DEA, FBI, CIA, NSA

Each faculty member brings a wealth of knowledge gained from their specific personal experiences in dealing with issues, and it meets the optimum point between tactical expertise and business evolution all colleagues benefit from this.

PSA-Academy™ provides dynamic and effective Specialist Training

The strength and success of our training derives from our professionalism and international presence. We have training personnel operating overseas supporting units deployed operationally and on peacekeeping and humanitarian missions.

PSA-Academy™ can design programmes that meet the client's operational requirements ranging from pre-deployment familiarisation courses for large peacekeeping formations to specialised courses for smaller units operating in hostile conditions.

Our company can conduct training within the client's environment. In addition we have strategic agreements that enable us to offer training abroad.

With our headquarters based in Hungary, EU and our operations extending overseas we offer our clients integrated logistic and administrative support 24 hours a day.

Our recognised expertise and confidentiality contribute to our success, which enables the end user to receive the most effective training available today.

Threat Assessment

Military and law enforcement communities have an important role in preventing those intent on subverting the balance of law and order. Real-time and dynamic training prepares the individuals mind set to operate more effectively.

Identifying and implementing your requirements

During the consultation phase PSA-Academy™ will conduct detailed analysis with the client to determine the training requirements and design the most effective tactical program. We can assist in setting the training strategy and defining the most cost effective delivery and implementation of the programme. We pride ourselves on enhancing the operational effectiveness and capabilities of the end user.

PSA personnel are internationally renowned experts within their disciplines and have developed their skills throughout their service within elite military and law enforcement units. On the ground our specialists will assist the client with any changes that may be required to be introduced in order to fulfil the objectives.

The constant monitoring and assessment of trends within the specialist security industry ensures our teams operate to the apex of their capabilities. All our specialists operate within an agreed quality framework and constantly conduct assessments of training thereby offering feedback to the client. We will set realistic and measurable key point indicators and ensure that our clients are operating and conforming to the systems approach to training. (SAT)

EXECUTIVE TRAININGS WITHIN THE SECURITY INDUSTRY

PSA-Academy™ Personnel

Our subject matter experts are drawn from a diverse military and law enforcement background.

Our instructor's skills and teaching methods are current and transparent: adopting the EDIP Methodology (Explanation, Demonstration, Imitation and Practise)

The strength in our diversity offers the client a unique and integral training edge.

All PSA-Academy™ personnel are vetted to operate within local cultures maintaining strong company ethics.

Enhancing training doctrine

Fundamental to ensuring your personnel achieve the levels of proficiency required. PSA-Academy™ will develop a close working relationship with your personnel to ensure complete training integration. We assess success when the transition is complete and our students become the next generation of instructors.

Our teams will work closely with the client to ensure that all training is documented. On completion this can be used as reference to maintain the highest standards.

Our aim is to assist your personnel to become experts in leading and developing their teams. With constant mentoring and guidance from PSA-Academy™ they will develop and perfect their own teaching methods.

Customised Training Programmes

We at PSA-Academy™ offer a wide spectrum of training ranging from Military to Law Enforcement skills. We pride ourselves on being a market leader delivering a sustainable and achievable service that is second to none. Our training courses can be adapted during delivery to meet the client's ever changing and diverse operational requirements. With emphasis on security and contingency planning our training programmes provide a solid platform to deliver a wide range of skills required to combat today's threats.

With over 40 specialist courses on offer we will design the appropriate programmes for you. We value our reputation and always work within host nation and security industry regulations.

PSA-Academy™ Expertise and experience

PSA-Academy™ International employees are some of the finest instructors within the Security Industry our ability to combine expertise, experience and patience is the basis of our continuing success. Our curriculum and teaching method is based on real professional experiences, sustainability and transparency.

PSA's Instructor Team combine the Israeli Security and Secret Service as well as the Russian, US and UK special forces, regular army and law enforcement in order to provide an instructional balance and tactical edge.

Our Company methodology is the driving force behind our approach. PSA-Academy™ always in the pursuit of

excellence, provide you with a training dynamic that guarantees success at all levels.

The Academy has earned international recognition from the world's largest professional organization International Bodyguard and Security Services Association - IBSSA and operates as an official IBSSA university delivering security education, with special focus in the area of the VIP protection and anti-terrorist studies.

PSA's training is professional, realistic and high quality based, which not only meet but exceeds Security Industry Authority's requirement.

The background of the slide features a metallic, industrial aesthetic. It consists of a dark, perforated metal plate in the center, which is framed by lighter, brushed metal borders at the top and bottom. Several circular screws are visible, securing the plates together at the corners and along the edges.

Our main training programs and courses

The one of the best of cutting edge of reality based training.

PSA's BODYGUARD TRAINING PROGRAM

The bodyguard training program of the PSA is done with the TCCS methods and the specially crafted and assembled educational material and themes based on the experiences and knowledge used by the centre's founder and other security, anti-terrorist experts, agents and protection officers working in various areas of security and protection around the world; the **British (SAS)**, the **American (Secret Service and Diplomatic Protection Service)**, the **Russian (President's Bodyguard Unit)** and the **Israeli Security Service**.

The satisfaction of the market and the needs, of the clientèle, with the consideration of the modern age, international terrorism and the new crime-committing devices and methods were also top priority in the development and structuring of the educational material, not counting the professional challenges.

The TCCS is specially developed educational system and themes are recognized by many international organizations and thanks to that, it also functions as an accreditation educational institute for many international organizations, so its courses are now recognized and accredited in more than 120 countries around the world.

The PSA's Bodyguard Training Program - considering these needs - offers training and specialized further training in the following 5 fields of study.

1. Celebrity Bodyguard/VIP Protection:

This module has been planned and developed for the protection of celebrities, singers, movie stars and artists. The module teaches the students about the continuous or periodical escort and protection of celebrities at premiers, concert tours, filming locations or other events, in low profile of demonstrative mode, they also learn the skills required to assist their bodyguards with no local knowledge, to cooperate with co-organizations (local police or other security staff), how to treat or counter problems, incidents, attacks among other skills like: defensive driving, EOD methods, weapon skills, etc.,

This module is built up in 3 levels.

Each level is in **250-300 hours**.

Level: basic, advance, team leader

Bodyguard Trainings

2. Business Area/Personal assistant

This is an extended version of the celebrity bodyguard module, which focuses on the protection of VIPs working in the business sector, for example: businessmen, CEO-s, bankers, bank managers. It teaches the treatment of problems found in the business sector, business protocol and etiquette commonly used in the business sector and prepares the students to fulfil secretary assistant tasks and furthermore deals with information security, reconnaissance of intercepting devices and the protection of information during the organization of a conference.

This module is built up in 3 levels.

Each level is in **250-300 hours**.

Level: basic, advance, team leader

3. Diplomatic Corps/Diplomatic Bodyguard

This module is developed for the complex protection and security of delegations, diplomats, politicians and their families. This is the extended version of the business bodyguard, which deals with the diplomatic protocols, diplomats' and delegations' security, the complex protection of diplomatic facilities, representation, organization of protocol events, in and out access control as well as assembling and securing the diplomatic convoys; all of these are based strictly under the professional principle without any affiliation to politics or ethnicity. We suggest this module for those people and teams, who wish to work in the diplomatic sector.

This module is built up in 3 levels.

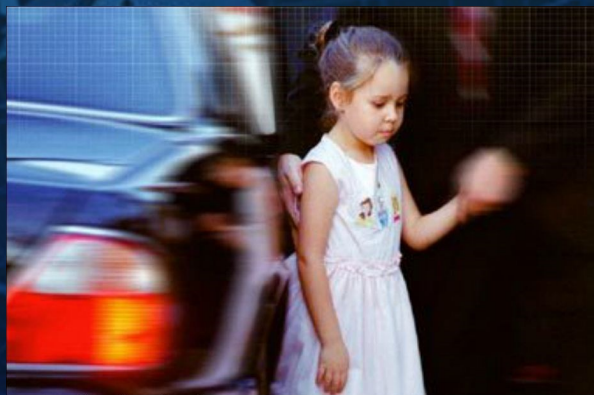

Each level is in **250-300 hours**.

Levels: basic, advance, team leader or commander.

Bodyguard Trainings

4. Kid Guard/Child Bodyguard

This field of knowledge is starting to become more accepted due to the global increase of kidnappings and abductions. Let us not to forget, that the VIP's family members are living unknowingly in the same threat as the target person. The attacker or hit-man will see the high level of protection, which the target person is receiving, so he might try to find a way to get a chance, where he can achieve his goal with the lesser amount of energy. The simplest way is through the target person's family members, and children. Let us just think about it, every normal person would do anything for their children, the target person can be blackmailed and will be vulnerable this way.

That is why - due to other training companies, agencies, and organizations, who say that this field is somewhere between a bodyguard and a babysitter - we say that the protection of children is a priority in personal protection, because a child is honest and tells the truth and a child's soul is much more vulnerable, so in high risk situations, it is much more difficult to get it in the line of defence or into conspiracy ordinations

due to his way of life and age. This module contains pedagogy, psychology, child's first aid, and child care knowledge in addition to the complex normal personal protection skills.

We suggest this module as a basic for those, who work with children and for those, who are employed in this line of work or for those, who work for families as residential babysitters and the level of threat requires these additional skills.

This module is built up in 2 levels.

Each level is in **250-300 hours**.

Levels: basic, advance

Bodyguard Trainings

5. Military Bodyguard/PSD/PMC (Private Military Contractor)

This is the 5th field, which contains the most knowledge and is taught in the highest number of courses. The module is the extended version of the diplomatic bodyguard module, which features next to the protection of VIPs, facilities, and shipments also the assembly and security of armed convoys. With the usage of military satellite radios, map orientation and GPRS, special field surgery basics (TCCC-Tactical Combat Casualty Care), reconnaissance and observation skills, as well as the prospective PSD mental preparation by the “extreme stress training” based on special psychological principles, which are used by special forces and elite law enforcement squads.

This level is only suggested for those, who have previous experience, or received the complex Diplomatic bodyguard module training program, but they also have to do a profession and physical test.

By knowing all this, we suggest this only to those civilians, besides military and law enforcement squads, who are aware of their skills, know their limits and are open to learn new skills, refresh or overwrite old ones and can get on with the strict discipline and can stand the stress, which comes with the special training's difficult physical and mental elements.

This module is built up in 3 levels.

Each level is in 350-400 hours

Levels: basic, advance, team leader or commander.

Bodyguard Trainings

GENERAL INFORMATION

All modules of the PSA's Bodyguard training program are intensive residential educational systems, which are in 2-3 weeks periods, containing live firearms practice and situations taking place under extreme stress.

The Celebrity / Business / Kid Guard modules concentrate specially on small arms weapons at different stages starting from the basics, while the Diplomatic and Military modules use sub - machine guns, assault rifles, and rifles besides the small arms weapons and also teach the combination opportunities of their fire power and techniques.

Through the PSA's branches we have access to several open and closed shooting ranges, so each module - due to the difficulties in the British legal system - will usually be held in ex-communist, Eastern block countries, such as: Hungary, Slovakia, Romania, Ukraine; or in Africa, Switzerland, and Israel or US.

All of the PSA's Bodyguard training program modules will feature and emphasize the following 10 fields of education appropriate to the given modules and levels:

COURSE SYLLABUS:

Unit 1 Escort

This is walking in close proximity to the principal (VIP). As the threat increases, the number of bodyguards required in escort also increases, and they assume a phalanx formation. The object of escort is observation and protection through 360 degrees, and intervention when necessary. The training peaks with an intensive final exercise that combines all the skills and knowledge obtained throughout the duration.

Unit 2 Tactical Close Combat System/Krav-maga

The Krav-maga is very effective defensive system. This special close combat style is from Israel, but the special unit and secret services of many countries also learn and use it because of its efficiency. The methods used include firearms, edged and impact weapons, unarmed combat, arrest and restraint techniques. The CPO has to be able to handle all types of different combat situation. They also have to have skills not only to hand fight, or to use restrain technique, but also being able to parry an attack with protective driving or during a protective escort. The programs for Bodyguard include fast and effective way of using acupressure points on the body in certain situations.

Bodyguard Trainings

COURSE SYLLABUS (CONTINUE):

Unit 3 Protective driving - Obviously the principal (VIP) do not wish to walk everywhere. It may be acquired on a ground level with the occasion of the course the defensive leadership techniques. The defensive phase seeks to avoid potentially dangerous situations and enables the vehicle to escape from an ambush.

Unit 4 Improvised Explosive Devices (IED) - Search and recognition enables the bodyguard to locate and identify threats posed by explosive and incendiary devices constructed from military or civilian components. The bodyguard's responsibility is then to evacuate the area and contact the appropriate authorities.

**Unit 5 Tactical Shooting Skill**

A 3-5 day introduction to safe practical and effective firearms handling. This course is specifically designed - since the education starts from the very beginning and is built on three levels - to train candidates in the fundamentals of pistol shooting, from safe handling to fast, accurate and effective close quarter shooting.

We will slowly work our way up so that the shooting position, aim and shot are all correct. After this you will be shown the most up to date techniques currently taught to Police and special forces units in the UK, USA and Israel to enable you to shoot with clinical efficiency and speed in a variety of realistic tactical situations.

This way we secure that all students - regardless of prior experience - will get a good result at the end of this course.

Bodyguard Trainings

COURSE SYLLABUS (CONTINUE):

Unit 6 Law and Legislation - the role of a CPO requires individuals to be fully conversant, cooperative and knowledgeable of the law, and to understand the relationships between the CP Industry and official law enforcement agencies. Again this is achieved by classroom discussions, videos and practical scenarios application stress under pressure.

Unit 7 Surveillance and Reconnaissance - This module will introduce you to the concept of surveillance and counter surveillance and is a key to protect clients as most pre-meditated attacks include some form of surveillance. Preventative and proactive measures to detect surveillance are taught and related to real life incidents. There must also be procedures when things don't go as planned and the ability to think on your feet will be developed during the course.

**Unit 8 Medic (Emergency First Respond or TCCC)**

First aiders restore function. Besides life support techniques for the VIP and other bodyguard and for people, the management of ballistic injury is required to cope with the various effects of bullet and shrapnel wounds such as haemorrhage, as well as burns and fractures etc. The CPO learns how to use the AED (automated external defibrillator).

Unit 9 Communication, Incidents-Dilemmas and Conflict management - Conflict in the CP jobs seems to be a fact of life. We've all seen situations where different people with different goals and needs have come into conflict. And we've all seen the often-intense personal animosity that it can result. The fact that conflict exists, however, is not necessarily a bad thing: as long as it is resolved effectively, it can lead to personal and professional growth. We teach you how to deal with conflicts - rather than avoiding it - as it is indispensable.

Bodyguard Trainings

COURSE SYLLABUS (CONTINUE):

Unit 10 Risk assessment, operational planning and safe route selection - It is important to identify and quantify the risks when working as a CPO and good planning and preparation is an essential part of the role. Exercises and classroom activities incorporate a large part of this module where delegates will actually plan and prepare for an operation leading to the final exercise.

TACTICAL HOUSE AND „EXTREME STRESS PROGRAM“

During our trainings we use a specially designed building, divided by rooms and corridors, the 'Tactical House'.

The designs of the rooms are created - based on the requirements of the contractor and the type of the training. In this way each group may focus on their specific life situations applied in a training exercise.

For the training we use a specially designed simulation weapon. This weapon looks like, feels like, and works like the real one, the only difference is the bullets - made by plastic - which contains paint.

With the combination of environment, the program and the special weapons used, we create an „extreme stress level“ situation where we can see each individual's personal reaction to certain situations.

The other part of the program is the 'Extreme Stress Program'. This program is based on a hard psychological principle, and has been designed for eliteforces, FBI agents, etc.

All the exercises are recorded by cameras and after each exercise the tapes are analysed, reviewed and corrections suggested.

Such knowledge and experience gathered this way is deeper, lasts longer and in real life situations are much more functional than any other.

The exercises are also usually monitored by a Pedometer (pulse counting watch). This watch checks and records each individual's heart rate, and with this it is possible to follow the individual's stress level, and changes the movement and coordination, etc.

Bodyguard Trainings

TACTICAL CLOSE COMBAT AND SELF DEFENCE SYSTEM

This system is not part of any self-defence or martial arts styles and neither a new martial arts branch, but a realistic, very effective complex defence and tactical system. This tactical system educates for special units / forces and secret services' members of many countries because of its effectiveness.

In every module of the PSA Bodyguard Training Programme we use training weapons and knives for the realistic experience of close combat and self-defence, furthermore for full contact of realistic scenarios we use "RED MAN®" special purpose protective gear, used by the elite police, law enforcement units and special agent all over the world.

With this equipment the participants may land

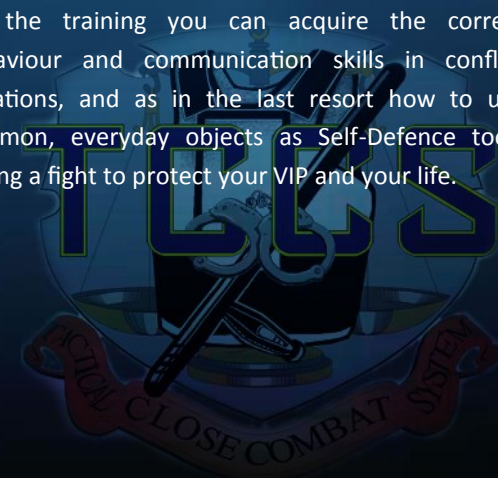

punches and kicks, carry out learnt techniques with full throttle on each other.

In our trainings we teach the Tactical Close Combat System, which is compiled by TCCS for Bodyguards.

The System includes the armed and unarmed fighting. The program is based on the most effective military close combat styles such as the **krav maga**, **gemart**, **kapap**, which originate from Israel, and because of efficacy these are used by the elite units and are taught at the secret services all over the world, or the **Systema**, which is also an old tradition but this style is not so well known system in our country, though its efficacy is unquestionable. This fighting is the method for Russian elite force / units and Specnaz and may be subject to the direct roots of Stalin's closest bodyguards.

The training program contains quickly feasible and very effective techniques, which teaches the human bodies acupuncture points and the usage of these opportunities and the effects on the human body and also the attacks of these points and their techniques and tactics in different situations.

On the training you can acquire the correct behaviour and communication skills in conflict situations, and as in the last resort how to use common, everyday objects as Self-Defence tools during a fight to protect your VIP and your life.

Bodyguard Trainings

INSTRUCTOR TEAM

The PSA Bodyguard Training Program is run by our specialist team of internationally recognized and highly experienced trainers, who throughout the years obtained much knowledge and personal experiences in the different special areas of the Personal Protection that is: Celebrity protection, Victim and Witness Protection and VIP Protection in war zones, on terror areas, Diplomatic and Embassy Protection and in other Specialist Security areas.

QUALIFICATION

The PSA's Bodyguard Training Program has got recognition and qualification from more international educational organisations and institutions. Our training is realistic, professional and high quality, which exceeds the requirement system of SIA (Security Industry Authority). Our training programs are accredited by several awarding body and recognized worldwide.

Our Bodyguard Training Program has got also international recognition and qualification from the International Bodyguard and Security Services Association (IBSSA) - as an accredited and recognised training system and centre for security and anti/counter-terrorist sciences all over the world.

Graduates, who successfully stand in all course requirements, will be eligible to a professional international diploma, and bodyguard badge and ID-card of the IBSSA, acknowledged in the world and having recognition both in the private and public sector.

SIA LICENCE:

Upon successful completion of the course and passing the required examination, you will be eligible to apply for SIA licence. We recommend that all students order a licence application pack on the SIA website and bring it with them to the course, this way we can assist you where needed in applying for your licence and will be able to avoid any unnecessary delays.

CANDIDATE

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 12-15 students per program.

10-21 days Full Time program.

Minimum participants for any course: 10 students per program.

Due to the popularity of our seminars we recommend that students wishing to attend a course reserve a place as early as possible to avoid disappointment.

COURSE'S LANGUAGE

Language of courses is English, Hungarian, but there is an opportunity to attend our seminars in Romanian, Russian, Ukrainian, Italian, Polish, Arabic and Hebrew languages.

If any other language inquires, please contact the International Protective and Security Academy.

Bodyguard Trainings

TRAINING SITE

The courses are performed in the modern facilities of the PSA Academy™ worldwide - also operating as one of the official training centres of the IBSSA in the United Kingdom, Hungary and Florida & Georgia States in US also . The academy has representations in several european countries too. However, it is also possible to implement the course abroad, according to a specific request by customers.

CONDITIONS of ADMISSION

- secondary school / high school
- Clean criminal record
- Physical fitness
- Medical, Psychological suitability

Conditions of participation: valid accident insurance and signature of an of official secrecy declaration!

Priority to admission will be given to candidates, who possess a professional previous experience.

For example: in martial arts, Weapon treatment etc

COURSE PRICE

Our courses are priced competitively. Prices vary through the type, location, length, duration (typically from two weeks) and any other specific needs of the course.

PHYSICAL FITNESS

- Horizontal bar pull-ups - 12 or more.
- 3,000 meters run – less than 15 minutes.
- Parallel Bar push-ups – more than 16.
- Sit-ups - Cross-Legged against the wall, minimum 60 sit-ups.
- 400 meter run - minimum 70 seconds - running in pairs

DATES

JOINING INSTRUCTION

Upon receipt of the deposit your booking confirmation and joining instructions will be issued to you, detailing all you need to know including a recommended kit list.

For more information about the programs and the specialized bodyguard courses/trainings as well as the requirement of the applications you can ask more details through email or phone.

Bodyguard Trainings

Shooting Training Program

Fire Arms Trainings

PSA's SHOOTING TRAINING PROGRAM

The PSA-Academy's firearms training program offers to elite military , - security personnel and law enforcement officers as well as civilian citizens.

Our trainings mainly in the ex-Eastern block countries and US and Israel or South-Africa, because of the difficulties of the British Laws.

Only an effective, safe and authoritative program of study can guarantee that in a moment of danger YOU will act to protect yourself, your loved ones or the ones you are sworn to with self defense firearms training skills.

The PSA Shooting Training is such a program. Here, we teach Marksmanship – how to hit what you aim at. However, PSA training goes beyond this simple discipline to include the principles of Gun-handling.

We offer multiple levels of instruction in Firearms.

The shooting training at PSA are divided into 5 modules and modules onto 2 or 3 levels and special training for instructors.

Modules:

- Small Arms
- Shotgun
- Rifle/Carbine
- Tactical shooting and SWAT
- Sniper/Counter Sniper

Levels: basic, intermediate, advance, professional and instructor

SHOOTING RANGE

The Academy's firearms training is provided mainly in the ex-Eastern block countries and Israel or USA, because of the difficulties of the British Laws.

Through our representatives there are shooting exercises in numerous opened and closed shooting facilities, in Europe mainly in Hungary, Romania, Slovakia, Serbia and Ukraine.

The range areas are various and it is possible to carry out shooting courses from an 8-10 personnel up to a 30-40 group.

The shooting ranges provide various opportunities for different type of shooting, such as: small arms, shotgun, automatic rifle, carbine and precision rifle training.

The choice of shooting range is dependent on the requirements of the training or contractor and the type of the specific training.

All our shooting ranges have valid licenses and insurance.

INSTRUCTOR TEAM

Our instructors are highly qualified ex-soldiers, police officers and law enforcement agents who have real life experience with weapons. Who under the years obtained much knowledge and personal experiences in the different special security areas that, in Armed Personal Protection, Victim & Witness Protection, and PSD, urban warfare, and SWAT.

Our training is professional, realistic and quality based. In our training we use real firearms, all kind of situations and create realistic atmospheres.

Fire Arms Trainings

SMALL ARMS

COURSE OVERVIEW

A three day introduction to safe practical and effective firearms handling.

This basic course is specifically designed where the education starts from the very beginning and three builds on level from to train candidates in the fundamentals of pistol shooting, from safe handling to fast, accurate and effective close quarter shooting.

We will slowly work our way up so that the shooting position, aim and shot are correct. After you will be shown the most up to date techniques currently taught to Police and special forces units in the UK, USA and Russia as well as Israel to enable you to shoot with clinical efficiency and speed in a variety of realistic tactical situations.

This way we secure that all students' regardless of prior experience will get a good result at the end of this course. At this course there will only be used handguns.

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 3 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 70% Practical 30% Theory
- 400-500 rounds per 3 day of Ammunition
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 2 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Weapon Familiarisation, Maintenance, Strip and Assembly
- Fundamentals of Pistol Shooting
- Grip, Stance, Trigger Control, Sights, loading / unloading
- Use of Holsters both Tactical and Concealed
- Instinctive Shooting ranging from 0 to 7 meters

ADMISSION REQUIREMENTS

- Minimum 18 years old ,
- Clear criminal record

Basic Level

SMALL ARMS

COURSE OVERVIEW

A four day intermediate course to safe practical and effective firearms handling.

A 4 day course specifically designed to enhance and build on skills already taught, or learned. The fundamentals of safe weapons handling and shooting will be refreshed and built upon, to provide the candidate with a variety of techniques to operate effectively and at greater distance in a wide range of high threat firearms environments.

All techniques have been proven in real world situations and are those currently taught to elite Police units, military special forces and secret service in the Russia, USA, Israel and UK . The course also includes an introduction to a variety of different weapons systems.

At this course there will only be used handguns and accessories.

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 3 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 80% Practical 20% Theory
- 400-600 rounds per 4 day of Ammunition
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 2 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Recap of all skills taught previously
- Positional Shooting including use of Cover, kneeling, and Prone positions
- Tactical Movement and Separation
- Accelerated shots
- Multiple Targets and Moving Targets
- Dissimilar weapons training (inc. UZI, MP5 inc slings)
- Low light shooting
- And much more

ADMISSION REQUIREMENTS

Minimum 18 years old and clean criminal record and prerequisites our Basic Small Arms course, or equivalent from another school.

Intermediate Level

SMALL ARMS

Advance Level

COURSE OVERVIEW

A five day introduction to safe practical and effective firearms handling.

A 5 day course specifically designed to enhance and build on skills already taught, or learned. The fundamentals of safe weapons handling and shooting will be refreshed and built upon, to provide the candidate with a variety of combat shooting techniques to operate effectively and at greater distance in a wide range of high threat firearms environments.

All techniques have been proven in real world situations and are those currently taught to elite Police units, military special forces and secret service in the USA, Russia, and Israel. The course also includes an introduction to a variety of different weapons systems.

This way we secure that all students' regardless of prior experience will get a good result at the end of this course.

INCLUDED IN THE COURSE

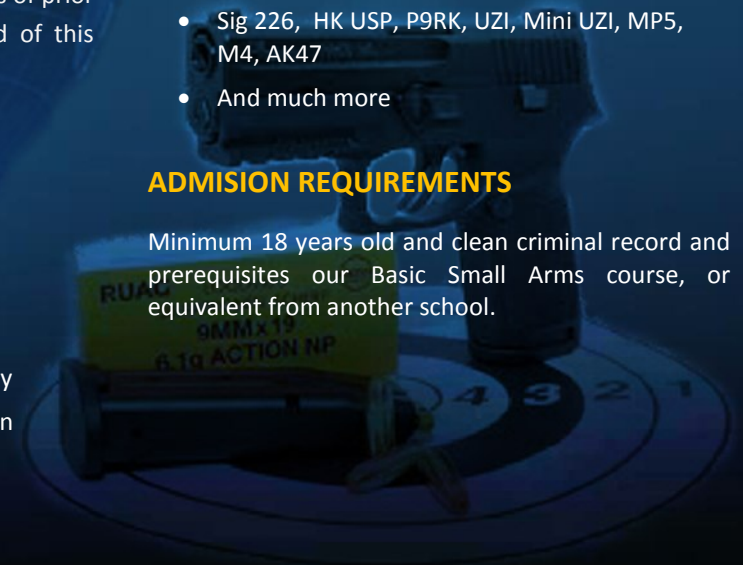

- Return transfer from and to the Airport
- 5 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 80% Practical 20% Theory
- 600-800 rounds per 4 day of Ammunition
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 2 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Re -cap of all skills taught previously
- Tactical re-loads
- Stoppage drills and "Actions on"
- Vehicle Drills
- Shooting into and from Vehicles
- Low light shooting , use of Torches and Tactical Lights
- Combat Shooting Techniques
- Building Entry and Room Searches
- Weapon Retention and Strikes
- Use of Jerico, Beretta, Colt 1911, CZ-75, Glock 17, -26,
- Sig 226, HK USP, P9RK, UZI, Mini UZI, MP5, M4, AK47
- And much more

ADMISSION REQUIREMENTS

Minimum 18 years old and clean criminal record and prerequisites our Basic Small Arms course, or equivalent from another school.

SHOTGUN

COURSE OVERVIEW

A two day introduction to safe practical and effective shotgun handling. This Basic course is a must for anyone who chooses to own or use a shotgun for defense or duty.

This basic course is specifically designed where the education starts from the very beginning we will slowly work our way up so that the shooting position, aim and shot are correct.

Upon completion of the course, you will know what main components of shotgun and its functions, which ammunitions we use for the shotgun and how to load the weapon. Students will understand the penetration potential of the various types of shotgun ammunition and how to operate the weapon safely.

After you will be shown the most basic techniques to shotgun shooting to enable you to shoot with normal speed and good efficiency in a variety of realistic tactical situations.

This way we secure that all students' regardless of prior experience will get a good result at the end of this course.

ADMISSION REQUIREMENTS

- Minimum 18 years old ,
- Clear criminal record

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 1 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 70% Practical 30% Theory
- 200 rounds per 2 day of Ammunition
- Weapons & Shooting Kit
- Saftey Equipment
- Exam Fees and Certificate
- 1 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Weapon Familiarisation, Maintenance, Strip and Assembly
- Fundamentals of Shotgun Shooting
- Grip, Stance, Trigger Control, Sights, loading / unloading
- Instinctive Shooting ranging from 0 to 7 meters
- Aimed shooting ranging from 10 to 30 meters
- Multiple Threats / Multiple Shots
- Turns and "Walking the Box"
- Introduction to Moving Targets
- And much more

Basic Level

SHOTGUN

COURSE OVERVIEW

This course specifically designed to enhance and build on skills already taught, or learned.

The fundamentals of safe shotgun handling and shooting will be refreshed and built upon, to provide the candidate with a variety of techniques to operate effectively and at greater distance in a wide range of high threat firearms environments.

Upon completion of the course, you will have the ability to rapidly and decisively engage targets out to 35 yards and you will know your weapon and ammunition well enough to deliver buckshot to end a hostage scenario!

This way we secure that all students' regardless of prior experience will get a good result at the end of this course.

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 1 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 80% Practical 20% Theory
- 350 rounds per 2 day of Ammunition
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 1 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Recap of all skills taught previously
- Long range shotgunning
- Multiple Targets and Moving Targets
- multiple hits, Low light shooting
- use of horizontal and vertical cover both strong side and weak side,
- stealth search techniques,
- shooting in motion
- And much more

ADMISSION REQUIREMENTS

Minimum 18 years old, clean criminal record and prerequisites our Basic Shotgun course, or equivalent from another school.

Intermediate Level

SHOTGUN

COURSE OVERVIEW

A 3 day course specifically designed to enhance and build on skills already taught, or learned.

For students who have successfully completed our Intermediate Defensive Shotgun and want to explore the use of the shotgun for urban conflict further, we offer this third level course. In it will concentrate on perfecting our close range skills, and spend a large amount of time moving and shooting, taking cover and shooting, shooting in low light and practicing dynamic search techniques, including decision making drills and shoot/no-shoot scenarios.

We have also moved the shotgun to handgun transition drills from Intermediate Defensive Shotgun into this course and will expand this training.

This way we secure that all students' regardless of prior experience will get a good result at the end of this course.

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 3 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 90% Practical 10% Theory
- 500 rounds per 2 day of Ammunition
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 2 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Recap of all skills taught previously
- Loading and Unloading, Tactical Reloading
- Firing Stance,
- Target Engagement from 7-25 yards under Time Pressure
- Select Slug Drill with Firing out to 50 Yards
- use of Torches and Tactical Lights
- Stoppage drills and "Actions on"
- the change of fire power; shotgun and pistol and come back
- Practices in different situations under stress
- And much more

ADMISSION REQUIREMENTS

Minimum 18 years old, clean criminal record and prerequisites our Intermediate Shotgun and Small Arms course, or equivalent from another school.

Advance Level

RIFLE/CARBINE

Basic Level

COURSE OVERVIEW

An entry level course for assault rifle/carbine shooters. This class is geared for those who have not had any formal instruction. Topics covered include safety, stance, zeroing for iron sights and optics, sight alignment and trigger control.

Familiarization with their assault rifle/carbine includes field stripping and maintenance. Other subject matter that is covered includes reloads, presentation, shooting positions, and introduction to different skill drills including dry fire and bullseye shooting.

This way we secure that all students' regardless of prior experience will get a good result at the end of this course.

At this course there will be MP5, M4, M16, AMD, AK or AK variant (VZ 58 style rifles, etc.)

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 3 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 70% Practical 30% Theory
- 800 rounds per 3 day of Ammunition
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 2 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Fundamentals of assault rifle/carabine Shooting
- Weapon Familiarisation, Maintenance, Strip and Assembly
- Basic marksmanship: Grip, Sight Alignment and picture, Breathing, Trigger Control, follow through and positions
- Rapid Assumption of Kneeling, Squat, Sitting, and Pron
- Target Engagement from 25 to 100 meters
- loading /unloading
- shooting in motion
- And much more

ADMISSION REQUIREMENTS

- Minimum 18 years old,
- clean criminal record

RIFLE/CARBINE

COURSE OVERVIEW

For shooters who have had at least a basic assault rifle/carbine class either from PSA, NRA or any other accredited instructor.

Topics covered include basic carbine topics and the following: malfunction drills and shooting on the move as well as transitions. Introduction to timed fire drills and evaluations based on class skill level. Night fire will depend on time of year and range restrictions. Class equipment is the same as the carbine basic with the addition of a weapon mounted flashlight and service pistol (9mm para caliber).

This way we secure that all students' regardless of prior experience will get a good result at the end of this course.

At this course there will be MP5, M4, M16, AMD, AK or AK variant (VZ 58 style rifles, etc.) and pistols.

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 3 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 80% Practical 20% Theory
- Ammo requirement is 800 rounds plus 300 rounds pistol
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 2 piece T-shirt with psa logo

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Recap of all skills taught previously
- Positional Shooting including use of Cover, kneeling, and Prone positions
- Tactical Movement and Separation
- Accelerated shots
- Multiple Targets and Moving Targets
- Tactical magazine change/reload
- And much more

ADMISSION REQUIREMENTS

Minimum 18 years old, clean criminal record and prerequisites our Intermediate Shotgun and Small Arms course, or equivalent from another school.

Intermediate Level

RIFLE/CARBINE

COURSE OVERVIEW

For shooters who have had at least a basic assault rifle/ carbine class either from PSA or any other accredited instructor.

Heavy emphasis on urban environment improvised position shooting, support-side shooting, weapon transition to a handgun, low-light, live-fire tactical scenarios with shooting moving targets, shooting on the move, shooting multiple targets, precision hostage-rescue shooting, and much more.

This way we secure that all students' regardless of prior experience will get a good result at the end of this course.

At this course there will be MP5, M4, M16, AMD, AK or AK variant (VZ 58 style rifles, etc.) and pistols.

COURSE CONTENT

- Introduction to Instructors and Staff
- Outline of Course Aims and Objectives
- Range Safety Briefing and Ground Rules
- Recap of all skills taught previously
- Tactical re-loads
- Stoppage drills and "Actions on"
- Vehicle Drills
- Shooting into and from Vehicles
- Low light shooting , use of Torches and Tactical Lights
- Combat Shooting Techniques
- Building Entry and Room Searches
- Weapon Retention and Strikes
- And much more

INCLUDED IN THE COURSE

- Return transfer from and to the Airport
- 3 Nights Hotel Accommodation
- 3 time meals/ day
- Daily Transport to and from the Range
- Full Instruction 80% Practical 20% Theory
- Ammo requirement is 1000 rounds plus 500 rounds pistol
- Weapons & Shooting Kit
- Safety Equipment
- Exam Fees and Certificate
- 2 piece T-shirt with psa logo

ADMISSION REQUIREMENTS

Minimum 18 years old, clean criminal record and prerequisites our Intermediate Shotgun and Small Arms course, or equivalent from another school.

CONDITIONS OF PARTICIPATION

Valid accident insurance and signature of an official secrecy declaration!

JOINING INSTRUCTION

Upon receipt of the deposit your booking confirmation and joining instructions will be issued to you, detailing all you need to know including a recommended kit list.

For more information about the programs and the specialized bodyguard courses/trainings as well as the requirement of the applications you can ask more details through email or phone.

Advance Level

MEDIC Training Program

First Aid Trainings

MEDIC PROGRAM

MEDIC TRAINING PROGRAM

The PSA-Academy operates as a medical education provider internationally and nationally across the UK.

Learning first aid is one of those skills which you wish you will never need but glad you know it. Come along and train with PSA- Academy and learn life saving skills with real first aider, paramedics and health care professionals. This Real life training will be invaluable if you ever needed to use it and you will be glad you did it.

We specialise in teaching emergency and immediate medical techniques, and theory, to a variety of students from all professional and non-professional walks of life. We promote the values of evidence based practice, accessibility for all, and student-centred learning. We believe that this creates an effective and relevant learning experience for the student.

The PSA's Medic Training Program offers training and specialized further training in the following 10 fields of study.

- **Emergency First Aid at Work**
- **Emergency First Responder**
- **First Aid at Work**
- **First Aid at Work Requalification**
- **Automatic External Defibrillator**
- **Medical Gases Operator**
- **Paediatric First Aid**
- **First Person on Scene (FPOS) Basic**
- **First Person on Scene (FPOS) Intermediate**
- **Tactical Combat Casualty Care**

1. EMERGENCY FIRST AID AT WORK

This new qualification is ideal for those already working or preparing to work within industry wishing to become an Emergency First Aider in the workplace for the purposes of the Health and Safety (First Aid) Regulations 1981.

The recommended course duration is 1 day; however this may be adjusted in accordance to meeting learner needs. Topics covered include: the roles and responsibilities of the Emergency First Aider, assessing an incident, recognising signs and symptoms of injury and illness and assisting a casualty who is suffering from injury and illness. The qualification is assessed via on-going oral questioning and practical demonstration.

The minimum contact hours for this qualification, excluding breaks should be for a minimum period of 6 hours over 1 day.

All successful students will be issued with an Emergency First Aid at Work Certificate, along with a wallet-sized plastic card detailing their qualification which is valid for a period of 3 years.

Emergency First Aid at Work

MEDIC PROGRAM

Emergency First Responder

COURSE OVERVIEW

Emergency First Response courses encompass adult, child and infant CPR and first aid skills, and incorporate Automatic External Defibrillator (AED) training and emergency oxygen use.

Emergency First Response also offers comprehensive First Aid at Work courses, specifically designed to meet compliance standards for workplace safety courses internationally. Emergency First Response courses are flexible in design to accommodate scheduling and training needs. They can be taught together or alone in any combination.

The Emergency First Response courses build lay rescuer confidence to provide care when faced with a medical emergency. Students learn and practice the same patient care techniques and principles used by medical professionals, but at a lay person level.

Emergency First Response courses follow current emergency patient care standards as published in the American Heart Association Guidelines 2005 for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care and the Basic Life Support (BLS) group of the International Liaison Committee on Resuscitation (ILCOR).

COURSE CONTENT

Emergency First Response courses the following consists of:

- ⇒ **Primary Care (CPR)**
- ⇒ **Secondary Care (First Aid)**
- ⇒ **Care for Children**
- ⇒ **Automated External Defibrillation (AED)**

ADMISSION REQUIREMENTS

Must be 16 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

MEDIC PROGRAM

First Aid at Work

COURSE OVERVIEW

Course which qualifies candidates to apply to the S.I.A. for licensing.

First aid is a key element to medical care. The earlier we can treat a casualty and the earlier we can get more medical help where needed the better it is for the casualty. To put it simply, first aid saves lives.

Our first aid training courses are designed to teach you those key skills but in a way that is informative and enjoyable. We want you to finish the course feeling confident that if something was to happen then you could help.

This course is designed to train employees to the standard required by the Health and Safety Executive. Delegates who pass the examination receive a First Aid at Work Certificate which is valid for 3 years.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

we can treat a casualty and the earlier we can get for 3 years.

INCLUDED IN THE COURSE

- Full Instruction 80% Practical 20% Theory
- First Aid Equipment
- Exam Fees and Certificate

COURSE CONTENT

- Acting safely, promptly and effectively in an emergency
- Cardio Pulmonary Resuscitation (CPR) (Adult)
- Treating an unconscious casualty (including seizure)
- Wounds and bleeding
- Shock
- Minor injuries
- Choking
- Preventing cross infection
- Recording incidents, actions and the use of available equipment
- Fractures
- Sprains and strains
- Spinal injuries
- Chest injuries
- Severe burns and scalds
- Eye injuries
- Poisoning
- Anaphylaxis
- Heart attack
- Stroke
- Epilepsy
- Asthma
- Diabetes

ADMISSION REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

MEDIC PROGRAM

Automatic External
Defibrillator - AED

COURSE OVERVIEW

An Automated External Defibrillators (AED) is an easy-to-use portable machine that automatically delivers a shock to a patient who is not breathing and has no heartbeat. In the hands of knowledgeable responders, AED units dramatically increase the survival rate of these patients. Because early intervention is so important for these patients, many businesses, government agencies, recreational facilities and public places are making AEDs readily available for properly trained personnel.

The Automated External Defibrillation (AED) course builds on the skills learned in the First Aid course to teach the proper AED use. This life saving device can increase a patient's chance of survival from a cardiac arrest by fifty percent. During this course you'll review the basic principles of CPR and learn how to deploy and use an AED in an emergency situation.

Delegates who pass the examination receive a AED Certificate which is valid for 3 years.

COURSE CONTENT

- ⇒ How the heart works
- ⇒ Type's of cardiac arrest
- ⇒ Cardio Pulmonary Resuscitation (CPR) (Adult, Child and Baby)
- ⇒ How to use an AED

INCLUDED IN THE COURSE

- Full Instruction 80% Practical 20% Theory
- First Aid Equipment
- Exam Fees and Certificate

ENTRY REQUIREMENTS

That we will require a copy of your current First Aid certificate to check you meet the requirements of the course.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

ADMISSION REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

DATES

If a sufficient number of candidates

MEDIC PROGRAM

Medical Gas Operator

COURSE OVERVIEW

This course is a comprehensive programme based on the necessary theory to enable the correct use of medical gases. This is specifically designed to enable the use to safely and competently use Oxygen and Entonox appropriately.

The Medical Gases course is designed to give users the confidence in their safe clinical use. It is ideal for staff working in medical centres, emergency services including police response units, voluntary organisations and private ambulance staff.

COURSE CONTENT

- ⇒ Oxygen theory (British Thoracic Society Guidelines)
- ⇒ CO2 retainer patients
- ⇒ Internal and external respiration
- ⇒ Oxygen safety, storage, indicators and contra indicators
- ⇒ Oxygen equipment and maintenance including various masks (facial and nasal)
- ⇒ Pulse Oximetry Entonox theory Entonox safety, storage, indicators and contra indicators Entonox equipment and maintenance

INCLUDED IN THE COURSE

- Full Instruction 80% Practical 20% Theory
- First Aid Equipment
- Exam Fees and Certificate

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

MEDIC PROGRAM

COURSE OVERVIEW

Course which qualifies candidates to apply to the S.I.A. for licensing.

The Level 2 BTEC Award IHCD First Person on Scene (FPOS) qualification is available at a basic and intermediate level. It has been designed to equip learners with the skills, knowledge and confidence to help a person in a life threatening situation.

Areas covered include:

- Scene safety
- Minimising the risk of infection
- Patient assessment
- Basic life support and automated defibrillation (to re-start the heart)
- Providing initial emergency patient care
- Being part of a medical response.

This qualification has been developed with the NHS Ambulance Services and is clinically endorsed by the Faculty of Pre-hospital Care. FPOS also meets the Security Industry Authority first aid requirements for Close Protection, and can be delivered internationally

INCLUDED IN THE COURSE

- Full Instruction 80% Practical 20% Theory
- First Aid Equipment
- Exam Fees and Certificate

WHO IS THIS QUALIFICATION FOR?

The basic and intermediate qualifications are designed for:

- ⇒ Those who are likely to be first on the scene of an emergency incident when a person's life is in danger
- ⇒ Community responders
- ⇒ Fire and police personnel
- ⇒ Industrial first aiders
- ⇒ Those who want to achieve more than First Aid.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program. we can treat a casualty and the earlier we can get for 3 years.

ADMISSION REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

First Person of Scene - Basic

MEDIC PROGRAM

First Person of Scene
Intermediate

COURSE OVERVIEW

Course which qualifies candidates to apply to the S.I.A. for licensing.

This foundational and valuable course, which as the title states, is designed for the immediate care and responses required in any emergency situation. The course is structured in subject delivery and practice, bringing constant development to each participant, but will also require some element of pre-learning and some further study outside of the course teaching hours in the evenings.

This 'full' FPOS course is delivered over five days and you will receive qualification in both FPOS Basic and Intermediate levels of award. You do not need to be a previously qualified First Aider to undertake this course.

WHO IS THIS QUALIFICATION FOR?

The basic and intermediate qualifications are designed for:

- ⇒ Those who are likely to be first on the scene of an emergency incident when a person's life is in danger
- ⇒ Community responders
- ⇒ Fire and police personnel
- ⇒ Industrial first aiders
- ⇒ Those who want to achieve more than First Aid.

Both the Basic and Intermediate FPOS certificates are valid for three years after which learners will need to meet the assessment standard for a new certificate to be re-issued.

COURSE CONTENT

- The Pre Hospital Environment
- Patient Assessment
- Airway Management
- Respiration and Ventilation
- Basic Life Support
- Circulation and Shock
- Medical Emergencies
- Trauma Related Emergencies

Note: Delegates who pass the examination receive a FPOS Certificate which is valid for 3 years.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

ADMISSION REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

MEDIC PROGRAM

Tactical Combat Casualty Care - TCCC

COURSE OVERVIEW

The Military Health System is pleased to host the Committee on Tactical Combat Casualty Care's (CoTCCC) updated curriculum for the Tactical Combat Casualty Care (TCCC) course.

The TCCC course is the military counterpart to the Prehospital Trauma Life Support Course. It is designed for military medics, corpsmen, and pararescuemen who are preparing to deploy in support of combat operations. Casualty care on the battlefield must be the best possible combination of good medicine and good small-unit tactics.

The specifics of casualty care in the tactical setting will depend on the tactical situation, the injuries sustained by the casualty, the knowledge and skills of the first responder, and the medical equipment at hand. In contrast to a hospital Emergency Department setting where the patient IS the mission, on the battlefield, care of casualties sustained is only PART of the mission.

TCCC recognizes this fact and structures its guidelines to accomplish three primary goals:

- Treat the casualty
- Prevent additional casualties
- Complete the mission

The TCCC program was developed to customize the principles of good trauma care for successful use on the battlefield.

TCCC divides the care into three distinct phases of care:

- ⇒ Care Under Fire
- ⇒ Tactical Field Care
- ⇒ Tactical Evacuation Care

COURSE CONTENT (BASIC LEVEL)

- Basic Anatomy and Physiology
- The Phases of Care
- Control of Major Bleeding
- Airway
- Breathing
- Abdominal Trauma
- Bandaging and Splinting
- Head and Spine Trauma
- Eye Injuries

MEDIC PROGRAM

Tactical Combat Casualty Care - TCCC

INTERMEDIATE COURSE OVERVIEW

PSA-Academy offers a three(3) day intermediate training program for our clients who have completed the beginner TCCC basic life saving course of instruction. The intermediate course of instruction is designed to be a refresher course for TCCC so our client can continue to "fine-tune" the basic life saving skills. We follow the adage, "If you don't use it, you will lose it" principle. Additionally, our client will be taught the behind the scenes effect of traumatic injuries to the human body and what is happening on the cellular level.

Each training program is specifically tailored to meet the client's needs. The TCCC guidelines are followed to ensure standard care is maintained. Material can be created for clients in need of training in topics that are not covered in the regular TCCC presentation.

TCCC divides the care into three distinct phases of care:

- ⇒ Care Under Fire
- ⇒ Tactical Field Care
- ⇒ Tactical Evacuation Care

COURSE CONTENT (INTERMEDIATE LEVEL)

- Tactical Combat Casualty Care
- Anatomy & Physiology
- Circulation
- Airway Management
- Breathing
- Head and Spine Trauma
- Shock
- Psychological Effect of Battlefield Trauma
- Musculoskeletal Injuries
- Trauma Lanes

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

ADMISSION REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

SPECIAL MILITARY & POLICE TRAININGS & TACTICS

LAW ENFORCEMENT AND MILITARY TRAINING PROGRAM - LMTP

The PSA-Academy™ provides the military and law enforcement training solutions and special training services to allied nations and several law enforcement and military as well as government agencies and UN..

We are a one of world-leading experts in military and law enforcement as well as security training and provide a comprehensive procurement and logistic service, risk analysis and personal security.

The Law Enforcement and Military Training Program (LMTP) is runned by our specialist team of highly qualified and certified trainers (ex-soldiers, police officers and law enforcement agents) who have real life experience, who throughout the years obtained much knowledge and personal experiences in the different areas of military and law enforcement and who worked in War Zones, High Risk Areas and in other Specialist Security fields.

OVERVIEW

CUSTOMIZED COURSES IN DEFENSIVE TACTIC, SWAT, FIGHTING SKILLS, HAND TO HAND COMBAT AND OTHER

For all sectors of the police, military, law enforcement, VIP protection, special forces, counter-terror and other security personnel, including ongoing and in-service programs.

We emphasize: TCCS-System education and training programs are designed to create an integrated fighter-officer who will function appropriately under the most stressful conditions – using the most effective techniques and tactics with determination and situation appropriate aggressiveness. Security sector courses and seminars include basic level through instructors education.

Course and seminar lengths vary, running from three days to more weeks.

ESTABLISHMENT AND MANAGEMENT OF TRAINING SYSTEM

Qualification of in-house instructors, including drafting training programs and lesson plans, assessing feedback and quality control of the training systems, and personnel management.

INTEGRATED TRAINING SOLUTIONS

Our instructors will join an existing program of education in the Police, law enforcement and military sectors, providing well-integrated TCCS-System a training tailored to meet program needs.

TCCS-System a police and military sector courses may be taught at the relevant client facilities or in our own PSA training centre.

We usually conduct our courses at the client's location but is opportunity to we transact the trainings in the academy's educational centres and training camps.

The PSA Centers buildings' size and levels are different. Also the rooms, corridors and staircases and it provides a great opportunity to practice urban warfare, the breaking in and out of a building, etc.

For tactical movement and clearing training we use paintball, airsoft weapons, and special designed „**FX Simulation®**“ weapons and **FX® protective gears**.

This designed program is for active duty Police, Law Enforcement SWAT or Serving Military Special Forces with prior weapon and tactical experience.

During our trainings we use a specially designed building, divided by rooms and corridors, the '**Tactical House**' as well as the "**Extreme Stress Program**". This program is based on a hard psychological base, and has been designed for elite forces, FBI agents, etc.

With the combination of environment, the program and the special weapons used, we can create an extreme stress level situation where we can see each individual personal reaction in each situation.

Such knowledge and experience gathered this way is deeper, lasts longer and in real life situations are much more functional than any other.

MOBILE TRAINING TEAM

Many of our best customers cannot send entire units to attend PSA courses in our Training facilities in Europe and US or other our main training centre.

Our solution is to bring our training to You.

PSA's mobile training team can create custom courses that fit your needs prior to the training or arrive ready to deliver one of our standard training courses. We work with Your group to select a safe training environment near you and to fit our training experience into your busy schedule. Our mobile training team is fast becoming one of the most popular service we provide.

REQUIREMENTS

Must be employees of the law enforcement agency or member of police, military unit or PSD Team.

INSTRUCTION METHOD

This LMTP involves both classroom theory, practical training exercises and extensive range time.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students/ 2 or 3 small team/unit per program.

Due to the popularity of our courses we recommend that military/police or other government agency wishing to attend a course reserve a place as early as possible to avoid disappointment.

FEES

A given ordered training program or courses, of course we can give an individual price for you.

CONTACT AND INFORMATION

For the training price and more information from our Law Enforcement and Military Training Program (LMTP) and our courses please ask for information on via e-mail:

Maritime & Anti-Piracy Program

PROGRAM OVERVIEW

It is an unfortunate fact of life that ships, seafarers and passengers have been subject to a wide range of violent attacks worldwide over recent years and acts of piracy, terrorism or other criminal activities are now a serious threat to the international shipping industry and individuals alike.

Maritime It is therefore crucial that crews are highly trained and provided with the necessary skills and confidence to recognise a security threat and then to act accordingly to avert a disaster before it develops.

PSA-Academy™ has for many years provided the best training solutions to fit our clients' requirements. We make it a priority to tailor our programs to our clients' needs, so they get the best possible outcome of our training.

Our maritime security courses are both generic for the majority of seafarers, but also dynamic to meet different entrance levels and company specific requirements.

The STCW 95 Basic Safety Training course and modules form part of the statutory requirements for anyone wishing to work at sea whether it be on a large commercial tanker, super yacht, cruise liner or even wind farms. The STCW 95 Training course is a globally recognized qualification for working at sea.

The STCW 95 course can be taken as a complete STCW 95 package over five days or as individual modules.

MODULES

There are four STCW 95 modules that are considered a basic entry level to working at sea:

- **Basic Safety Training course package (all 4 modules)**
- **Personal Survival Techniques**
- **Fire Prevention and Fire Fighting**
- **Elementary First Aid**
- **Personal Safety and Social Responsibility**

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

STCW 95

SHIP SECURITY OFFICER

PROGRAM OVERVIEW

The SSO Course designed to meet the requirements of the International Ship & Port Facility Security Code (ISPS Code), providing successful delegates with proficiency a SSO qualification.

The development of the [ISPS Code](#) including mandatory requirements for a Ship Security Officer was a reaction to the events of the 9/11 attacks on the United States in 2001 and the bombing of Limburg, the French oil tanker a year later. Although agreed in 2002, they didn't come into force until 2004.

The ISPS Code is in two parts for a Ship Security Officer to enforce. The first part has mandatory requirements for a Ship Security Officer to put in place; the second part offers guidance on implementation for Ship Security Officer.

All of this is explained in our course. The Code acts as a guide for all security bodies and personnel including the Ship Security Officer to ensure the safety of the ship against a variety of security risks including terrorism and piracy. It offers Ship Security Officers an outline for procedures to evaluate risk and enables governments to recognise threat levels.

Our Ship Security Officers Course (SSO) Approved by the International Maritime Organisation (IMO) is taught over three days.

Our course is the mandatory standard that you need and covers the following (To detail a few points):

MODULES

- Understanding the International Ship & Port Security (ISPS) Code
- Provide Knowledge for the Ship Security Officer (SSO)
- Construct and understand a Ship Security Assessment (SSA)
- Construct and understand a Ship Security Plan (SSP)
- The roles of the Company Security Officer (CSO), Ship Security Officer (SSO) and Port Facility Security Officer (PFSO)
- Relevant Security Equipment and understanding their use
- Maritime Piracy and world Hotspots

The main objectives and responsibilities of a Ship Security Officer include:

- Ship Security Officers implement security measures to detected security threats
- Ship Security Officers collect and circulate any security related information
- Ship Security Officers put in place methods for security assessments
- Ship Security Officers put in place plans and procedures should a security level change

Training course approved by the IMO

PROGRAM OVERVIEW

The Anti Piracy Operatives course has been designed to benefit those working within the maritime industry within a security role or those looking to move into this role, the course will greatly enhance your knowledge of anti piracy operations by building on your current level of knowledge and qualifications. This course teach that good understanding of piracy, the threat it poses, the Internationally Recognized Transit Corridor (IRTC), BMP4, but also how to deal with the threat and how to react whether you are the master of the vessel, a crew member or the on-board escort team.

COURSE CONTENT

- Subjects include
- Roles and responsibilities of an on-board security guard
- PCASP Flag Stat
- Geographical understanding of high risk waters
- Rules for the Use Of Force
- Weapons familiarization
- Threat identification, recognition and response
- Anti Piracy Drills
- Current piracy tactics
- Ship hardening
- Conduct/etiquette during passage
- Vessel threat/risk assessment
- Knowledge of different vessel types
- Conduct during watch and observation techniques

- On board communications training
- Understanding of the International Ship and Port Facility Security (ISPS)
- Automatic Identification System (AIS) when to use and when not to use
- Best Management Practice 4 (BMP4)
- Post incident reporting
- Crisis management
- Dealing with a hijack incident
- Post transit reports (PTR's)

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

- EFR
- MAYBO
- BAC (British Accreditation Council)
- HSE (Health and Safety Executive)

COURSE OVERVIEW

Under the Private Security Industry Authority Act 2001, all individuals wishing to work in the private security industry must undertake a recognised qualification before applying for a licence.

The BTEC Level 2 Award in Security Guarding has been developed to meet the requirements of the Security Industry Authority (SIA). It is based on the relevant SIA Specifications for Learning and Qualifications and provides the learner with the necessary knowledge and understanding for those who wish to apply for an SIA licence and work as a security guard within the private security industry.

To get one of the qualifications linked to security guard licensing you will need to attend and take three training modules and take and pass three exams. The course may be delivered over four days or during weekends and/or evening sessions. The duration of the training should be 26 hours. This course includes the new core module.

COURSE CONTENT

- Core Learning for Common Security Industry Knowledge (10 hours)
- Security Guarding Specialist Module (8 hours)
- Conflict Management Module (8 hours)

This qualification can enable the learner to progress onto the NVQ in Providing Security Services or undertake further learning in other areas of the private security industry such as CCTV Operations or Door Supervision.

ASSESSMENT

- Unit 1 - Working in the Private Security Industry
- Unit 2 - Working as a Security Officer
- Unit 3 - Conflict Management for the Private Security Industry

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

DATES

Regularly every month - in British Educational Centre but it is possible other site or abroad too.

SECURITY GUARD

DOOR SUPERVISOR

COURSE OVERVIEW

Under the Private Security Industry Authority Act 2001, all individuals wishing to work in the private security industry must undertake a recognised qualification before applying for a licence.

The BTEC Level 2 Award in Door Supervisor has been developed to meet the requirements of the Security Industry Authority (SIA). It is based on the relevant SIA Specifications for Learning and Qualifications and provides the learner with the necessary knowledge and understanding for those who wish to apply for an SIA licence and work as a Door Supervisor within the private security industry.

To get one of the qualifications linked to Door Supervisor licensing you will need to attend and take four training modules and take and pass four exams. The course may be delivered over four days or during weekends and/or evening sessions. The duration of the training should be 38 hours. This course includes the new core module.

COURSE CONTENT

- Unit 1 - Core Learning for Common Security Industry Knowledge (10 hours)
- Unit 2 - Door Supervisor Specialist Module (10 hours of which all must be contact time)
- Unit 3 - Conflict Management Module (8 hours of which 7 ½ hours must be contact time)
- Unit 4 - Physical Intervention Skills Module (10 hours of which 7 ½ hours must be contact time)

This qualification can enable the learner to progress onto the NVQ in Providing Security Services or undertake further learning in other areas of the private security industry such as CCTV Operations or Close Protection Officer.

ASSESSMENT

- Unit 1 - Working in the Private Security Industry
- Unit 2 - Working as a Door Supervisor
- Unit 3 - Conflict Management for the Private Security Industry
- Unit 4 - Physical Intervention Skills for the Private Security Industry

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

DATES

Regular every second week - in British Educational Centre, but it is possible other site or abroad too.

CCTV OPERATOR

COURSE OVERVIEW

Under the Private Security Industry Authority Act 2001, all individuals wishing to work in the private security industry must undertake a recognised qualification before applying for a licence.

The BTEC Level 2 Award in CCTV Operations (Public Space Surveillance) has been developed to meet the requirements of the Security Industry Authority (SIA). It is based on the relevant SIA 'Specifications for Learning and Qualifications for CCTV Control Room Operators (PSS)' and provides the necessary skills and knowledge for those who wish to apply for an SIA licence and work as a CCTV Operative.

To get one of the qualifications linked to CCTV licensing you will need to attend and take three training modules and take and pass three exams. The course may be delivered over four days or during weekends and/or evening sessions. The duration of the training should be 32 hours. This course includes the new core module.

COURSE CONTENT

- Unit 1 - Core Learning for Common Security Industry Knowledge (10 hours)
- Unit 2 - CCTV Operations (Public Space Surveillance) Specialist Module (22 hours)

This qualification can enable the learner to progress onto the NVQ in Providing Security Services or undertake further learning in other areas of the private security industry such as Security Guard or Door Supervisor.

ASSESSMENT

- Unit 1 - Working in the Private Security Industry
- Unit 2 - Working as a CCTV Operator
- Unit 3 - Practical operation of CCTV equipment

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

DATES

Regularly every second week - in British Educational Centre but it is possible other site or abroad too.

COURSE OVERVIEW

Under the Private Security Industry Authority Act 2001, all individuals wishing to work in the private security industry must undertake a recognised qualification before applying for a licence.

The BTEC Level 2 qualification is designed for those who wish to work in the industry; and is awarded to those who pass three examinations covering the basic knowledge and responsibilities of the occupation. This nationally recognised qualification is the industry standard and enables a Vehicle Immobiliser to apply for a licence to practice.

The SIA issues licenses to Vehicle Immobilisers who meet their criteria. In the interests of the industry as a whole and in support of its license to practice, the SIA invited awarding organisations to develop a qualification to meet this demand.

To qualify for a license you will need to satisfy three requirements:

- 1) Pass an identity check
- 2) Pass a criminal records check
- 3) Possess a recognised Vehicle Immobilisation qualification.

COURSE CONTENT

- Unit 1 - Working In The Private Security Industry
- Unit 2 - Working As a Vehicle Immobiliser
- Unit 3 - Conflict Management

This qualification can enable the learner to progress onto the NVQ in Providing Security Services or undertake further learning in other areas of the private security industry such as Security Guard or Door Supervisor.

ASSESSMENT

There are three examinations, one for each unit. Each examination has 20 multiple-choice questions and will take 30 minutes.

If you have completed a Security training course and/or qualification you may be exempt from some or all of the training and qualification requirements. For a list of exemptions, visit www.the-sia.org.uk

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

DATES

Regularly every second week - in British Educational Centre but it is possible other site or abroad too.

VEHICLE IMMOBILISATION

COURSE OVERVIEW

Under the Private Security Industry Authority Act 2001, all individuals wishing to work in the private security industry must undertake a recognised qualification before applying for a licence.

The BTEC Level 2 qualification is designed for those who wish to work in the industry; and is awarded to those who pass two examinations covering the basic knowledge and responsibilities of the occupation. This nationally recognised qualification is the industry standard and enables a CVIT Operative to apply for a license to practice.

The SIA issues licenses to CVIT operatives who meet their criteria. In the interests of the industry as a whole and in support of its license to practice, the SIA invited awarding organisations to develop a qualification to meet this demand.

To qualify for a license you will need to satisfy three requirements:

- 1) Pass an identity check
- 2) Pass a criminal records check
- 3) Possess a recognised CVIT qualification.

COURSE CONTENT

- Unit 1 - Working In The Private Security Industry
- Unit 2 -Working As a CVIT Officer

This qualification can enable the learner to progress onto the NVQ in Providing Security Services or undertake further learning in other areas of the private security industry such as Security Guard or Door Supervisor.

ASSESSMENT

There are two examinations, one for each unit. Each examination has 25 multiple-choice questions and will take 45 minutes.

If you have completed a Security training course and/or qualification you may be exempt from some or all of the training and qualification requirements. For a list of exemptions, visit www.the-sia.org.uk

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 14-15 students per program.

DATES

Regularly every second week - in British Educational Centre but it is possible other site or abroad too.

CASH AND VALUABLES IN TRANSIT

CLOSE PROTECTION

COURSE OVERVIEW

The BTEC Level 3 Award in Close Protection has been developed to meet the requirements of the Security Industry Authority (SIA). It is based on the relevant SIA Specifications for Learning and Qualifications and provides the learner with the necessary knowledge and understanding for those who wish to apply for an SIA licence and work as a Close Protection within the private security industry.

To get one of the qualifications linked to Close Protection licensing you will need to attend and take two training modules and take and pass two exams. The course may be delivered over four days or during weekends and/or evening sessions. The duration of the training should be 146 hours. This course includes the new core module.

This qualification can enable the learner to progress onto a range of qualifications such as the Foundation Degree in Protective Security Management from Bucks New University. Learners successfully completing the licence to practice qualification in Close Protection can be awarded 15 credits towards this Foundation Degree. Also the Foundation Degree in Crowd and Safety Management and the Certificate in Terrorism Studies

COURSE CONTENT

- Unit 1 - Close Protection Specialist Module (138 hours)
- Unit 2 - Conflict Management Module (8 hours)

FIRST AID TRAINING

When applying for your licence you will be required to produce evidence that you have attained a recognised first aid award. If you do not have a recognised first aid award you will need to get one in order to get your licence. This is in addition to the minimum 146 hours knowledge and practical skills training.

Recognised First Aid awards required for licence qualification are:

- First Aid at Work - 3 day course (HSE approved)
- First Person on Scene (FPOS) Intermediate Award 30 hours (Edexcel / IHCD)

Candidates may use significant experience of First Aid towards achievement of FPOS. Some training providers will assess this experience against the requirements of the FPOS certificate which may lead to the candidate needing to take less training

ASSESSMENT

- Unit 1 - Working as a Close Protection Operative
- Unit 2 - Conflict Management for the Private Security Industry

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

DATES

Regularly every second month - in British Educational Centre but it is possible other site or abroad too.

COURSE OVERVIEW

PSA Academy's Conflict Management training uses the Maybo System.

PSA Academy™ training will help your colleagues identify and reduce conflict and risk and influence a safe and positive outcome in a difficult situation.

Our programmes are written by subject experts in a team that has led the development of national qualifications and competency standards for frontline personnel, managers and trainers.

DELIVERY OPTIONS

PSA Academy's accredited conflict management training can be delivered by our trainers or yours and/or through our comprehensive choice of workplace coaching models, self-study and e-learning options.

We design our training programmes around your organisation, your staff and their service users' needs, so please contact us so we can learn about your needs and explore the best options with you.

LEARNING OUTCOMES

Learners will be better able to:

- Recognise potential conflict flashpoints and risks in their work
- Identify simple steps to prevent and reduce conflict and risk for all parties
- Develop positive relationships and interactions
- Defuse and resolve emotive situations

- Respond professionally and enhance the quality and reputation of your service.

We can include specific scenarios and case studies in our training designed entirely around the issues your staff face in their role. These could include:

- Lone working and remote working
- Dealing with difficult telephone calls
- Delivering unwelcome news
- Visiting people's homes
- Caring for people with dementia
- Supporting people with learning disabilities
- Working with children and young adults
- Treating people with mental health or substance misuse issues

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

DATES

Regularly every second month - in British Educational Centre but it is possible other site or abroad too.

Conflict Management

COURSE OVERVIEW

PSA Academy's Physical Intervention training uses the Maybo System.

PSA Academy's primary goal is to help its clients to reduce the use of force because physical intervention carries risk for everyone involved and can result in tragedy. Our training focuses on how to prevent situations arising and escalating but recognises there are times in some environments when staff have to act to prevent imminent harm to themselves or others. Where such scenarios are foreseeable PSA will give you greater peace of mind through:

- Helping you establish the level of training required and support with policy and guidance
- Targeting a reduction in use of force through building confidence in alternatives
- Reducing risks to service users and staff when intervention is legitimate and necessary
- Physical responses that are non-aggressive, professional, safer and highly effective

A SAFER APPROACH TO PHYSICAL INTERVENTION

The Maybo physical intervention model has a unique combination of features that provide you with:

- A **flexible** framework that responds to your agenda...not our convenience
- A **low arousal** approach that does not antagonise those involved or bystanders

- Individual and team methods that **look professional** and are **proven operationally**
- A **problem solving approach** that helps staff respond to local and individual needs
- Comfort in knowing that the skills have been **medically reviewed and risk assessed**
- Substantially **less training injuries** than traditional training models
- On-going support from some of the most experienced **expert witnesses** on use of force

PSA Academy can deliver training on site for your staff or train and equip your trainers to deliver our training programmes themselves.

MAKE THE RIGHT CHOICES

Physical intervention training must be carefully designed and delivered around the specific risks staff face, the roles they perform, the service users they work with and the environment in which they work.

We will help you minimise the need for physical intervention in your workplace and establish the level of training required by staff in different roles.

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

DATES

Regular every second weeks

Physical Intervention

US Security Training Program

US Qualifications

US TRAINING PROGRAM

The quality and professional trainings of PSA Academy™ has led to a need in our trainings around the globe. In the present day our Academy is operating a large international educational network in the world. In this network there are many well-known educational institute's and organizations which are all internationally recognized.

Our Official Representative and US Educational Institute of PSA Academy in the US is „**The International Academy of Executive Protection Agents**“, which is one of the top training academy's in the United States, specializing in :

- ⇒ **Executive Protection,**
- ⇒ **Firearms,**
- ⇒ **Close Quarter Combat,**
- ⇒ **Private Detective/Investigations,**
- ⇒ **Security Guard (armed & unarmed),**
- ⇒ **Emergency Tactical First Aid,**
- ⇒ **TASER training and more.**

Thanks to International Academy of Executive Protective Agents, now the PSA Academy trainings and courses are available in the United States and also the U.S. trainings and qualifications are now available in our European PSA Academy centers for our students and clients.

The head of the PSA Academy representation and training center in the United States is **Dr. Leonard C. Holifield** the founder of IAEPA.

IAEPA is a full member of the PSA Academy education network and is one of the most respected training academies in the United States, as well as earning a coveted spot in the Bodyguard-Careers Top 20 Bodyguard Schools in the United States.

The Center provides the following trainings in the United States and in the European Union:

- **Executive Protection Specialist (EPS)**
- **Private Detective/Investigator**
- **Security Officer**
- **Firearms**
- **Taser**

These courses are also an approved and accredited through the **Georgia Board of Private Detective and Security Agencies** and the **Nonpublic Post-secondary Education Commission**, which allows you to earn college credit towards a degree in **Criminal Justice or Security Administration**.

GEORGIA BOARD OF PRIVATE DETECTIVE AND SECURITY AGENCIES

The Georgia Board of Private Detective and Security Agencies ("The Board") is charged with the responsibility of regulating and monitoring the certain aspects of security guard training and licensing in the State of Georgia. The Board was created with a primary public interest purpose in mind -- to safeguard the citizens of Georgia by regulating the security business.

Having been appointed by the Governor, the seven (7) members of the Board are statutorily granted the authority to:

- (1) Set the qualification for licensing and regulation;
- (2) Review the applications during meetings;
- (3) Administer the security guard examinations;
- (4) Grant licenses to qualified applicants;
- (5) Regulate security guard licensees throughout Georgia;
- (6) Investigate complaints and, if appropriate, take disciplinary action.

Meetings of the Board are held in Macon, Georgia and are public proceedings (i.e., anyone is permitted to attend) However, anyone wanting to bring matters for the Board's consideration is required to submit a written notification or request to the office.

Private security companies are required to have a company license issued by the Board. Armed security guards must also be registered with a security company. Unarmed security guards are not required to be registered but must have completed the minimum number of training requirements set by board rule. The Board also licenses training instructors to regulate all training requirements for licensure, registration, and weapon permits required by the law.

IBSSA TRAINING PROGRAM

INTERNATIONAL BODYGUARD & SECURITY SERVICES ASSOCIATION

I.B.S.S.A. is the official international association of private security firms, manpower and technical resources companies, technological industries and individual members dealing with security professions.

The IBSSA is a non-profit international association involved in organizing, coordinating, giving assistance, technical help and development to its members worldwide in the field of security in all its forms.

The association was registered in France in 1994. The Honorary Founding President of the IBSSA is H.R.H. Prince Adan CZARTORYSKI BORBON. The IBSSA is represented today in more than 100 countries, through its members IBSSA represents hundred thousands of different security companies, security experts or organizations. For more information about this international organisation as well as the requirement of the memberships, please look at the official IBSSA website. www.ibssa.org

The PSA-Academy™ has got international recognition and qualifications from the International Bodyguard and Security Services Association (I.B.S.S.A.) as an accredited institution for security and anti-terrorism science.

PSA-Academy™ operates as an official university and training center of I.B.S.S.A in the field of security education, with special regard to the field of bodyguarding.

The primarily courses offerings in the system of the IBSSA and to different IBSSA safety professional permits and certificate as provides.

At the PSA Academy™ the IBSSA training programs are led by a dedicated and team consisting of accredited instructors with real profession experience and Military and Law Enforcement backgrounds.

At PSA-Academy™ we offer wide range of security and safety courses from IBSSA Level 1 to 4, each of which is built by specific needs, combining a variety of individual

modules and which meet the necessary criteria to enable you to apply for your IBSSA license.

Some of the following IBSSA security courses that we offer :

- **IBSSA Level 1-4 Security Agent**
- **IBSSA Level 1-4 Bodyguard**
- **IBSSA Level 1-4 Value Security and Transportation**
- **IBSSA Level 1-4 Manager of Security**

Training seminars last from 10 days to 3 months. There are basic and advanced courses as well as general and special thematic such as shooting, self-defense, martial arts, specialist driving, close combat, bodyguarding, escorting, etc.

Group training is based on a 10 person minimum attendance. Training sessions are always available. All courses and qualifications will be done according to the rules set by IBSSA Education and Qualification Department.

After every training course an internationally recognized diploma and identity card with photograph of the participant will be issued, and their name included on the IBSSA list of recognized bodyguards.

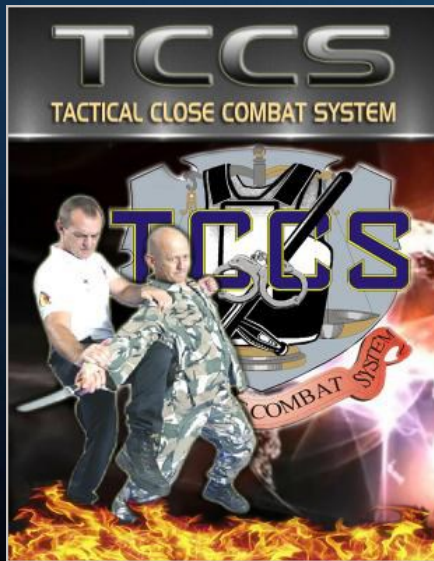

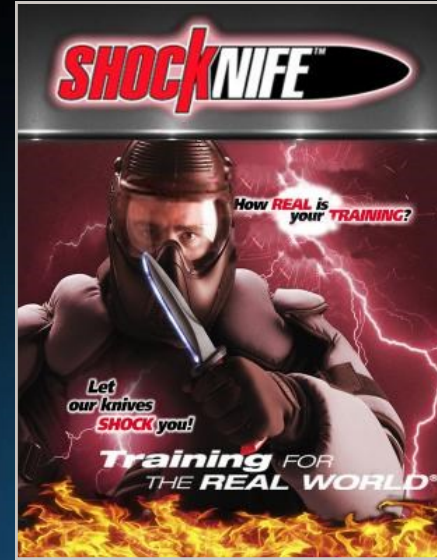

Security guards, bodyguards and other experts or instructors are entitled to carry an IBSSA passport also.

It is available at the PSA Academy™.

SOME ADDITIONAL COURSE AND TRAINING

"EXECUTIVE TRAINING FOR TOMORROWS SECURITY PROFESSIONALS"

The one of the best of cutting edge of reality based training.

TASER® COURSE

COURSE OVERVIEW

The PSA Academy™ is designed to provide training on the use of TASER® brand conducted electrical weapons and products. Training is geared toward the special needs of law enforcement officers, correctional officers, medical personnel, the military, security professionals and private citizens.

Force options and decision making, medical issues, maintenance, reporting and personal safety are just a few of the topics covered in the offered courses.

It is a well established truth that “we fight like we train.” It is for this reason that we emphasize hands-on, interactive and scenario-based training.

Most of our courses involve some degree of physical activity and participation. We make every effort to simulate real life stress and circumstances, to provide realistic training to better prepare the student for success in the field.

Through the use of our interactive TASER® Trainer simulator system and TASER® Simulation Training Suits, we promote sound use of force judgment, tactics and follow up procedures.

TOPICS INCLUDE:

- Force options and decision making
- Personal safety
- Medical research
- Reporting
- Conducted Electrical Weapon maintenance

Also featured is a one-day program highlighting use-of force legal and policy issues, medical information, and risk mitigation for applicable or interested parties.

TASER LAW ENFORCEMENT COURSES

TASER® Training courses emphasize hands-on, scenario-based training to better prepare trainees for real situations. We cover diverse topics like TASER® technology, smart usage, reporting, weapon maintenance, and follow-up procedures.

Current courses offered:

- Instructor Course
- Master Instructor Course

ELIGIBILITY

The TASER® Instructor and Master Instructor courses are open to sworn law enforcement and active duty personnel.

TASER® International does permit commercial for profit security companies to attend our TASER Instructor course as part of our Private Security Licensing Program.

REDMAN® TRAININGS

COURSE OVERVIEW

Who needs this training?

Originally this program was made for elite law enforcement professionals, for police, military and close protection officers and agents but it gives a big help for the training of civilian security operatives as well.

PROGRAM SUMMARY

This course is created for law enforcement and military staff and security professionals.

Since 1984 it has been RedMan's mission to give law enforcement, military and corrections officers the tools they need to prepare for real-life encounters. It prepares them to train their personnel using accelerated learning methods and technologies that are simple to understand and use, yet takes reality-based training to a new, more efficient and effective level.

The reality based instruction will allow instructors to create a realistic training curriculum that maximizes hands-on learning and enables their own students to successfully master tactics and techniques that focus on survival in the street and in the law enforcement work.

Having the right training equipment is just the first step. Nothing prepares you better than lots of practice. But what really makes your program most effective is training that prepares you for real life confrontations. You can't learn this from books. You have to train in simulations that mirror real situations, so that when

they occur, you know exactly what to do. You need to know how it feels to get hit, what your own power feels like, what actions you can take and most importantly, how to do them safely.

RedMan Training brings together the RedMan product line with the best trainers and training programs in the world.

The PSA Academy offer comprehensive courses designed to prepare officers for real-life encounters. These courses remove doubt, increase confidence and improve survivability when the unexpected occurs. You will find training modules for everything from recruit training and defensive tactics to corrections extraction and riot control. Based upon field-proven strategies, these programs keep officers safe and reduce liability.

Over the years, PSA has partnered with some of the best trainers and training facilities in the world to offer cutting edge training programs.

The PSA Academy now has make available this the cutting edge training program for you too, which so far was available just for the elite police and law enforcement professionals at trainings.

DURATION

Generally One to five days.

ELIGIBILITY

This courses are open to sworn law enforcement and active security professionals. Start of the courses, if will be sufficient number of candidates.

SHOCKKNIFE® TRAINING

COURSE OVERVIEW

Who needs this training?

Originally this program was made for elite law enforcement professionals, for police, military and close protection officers and agents but it gives a big help for the training of civilian security operatives as well.

Over the last few years, tremendous inroads have been made in preparing our law enforcement officers and military for the violence they may face. From the early days of cotton ball training we have progressed to the use of paintball and now to Simunition® and AirSoft®.

Training equipment and tools that allow a strong confrontation simulation or force on force training have allowed our trainees to face performance - diminishing stress while still being safe. Yes, even when conducted in a safe way, confrontation simulation may bruise or cause the trainee pain; however, this discomfort pales in comparison to the risk of death or permanent injury in a real incident if the officer's training has failed to properly prepare him for up close and extremely violent encounters.

Edged weapon defense needs to be properly developed as well. Whether you are assigned as a corrections officer and face homemade shanks, a wildlife enforcement officer dealing with hunting knives, a police officer facing everything from a kitchen steak knife to a street thug armed with a balisong, or a soldier possibly facing a bayonet or entrenching tool, you must train to defeat whatever edged weapon threat comes your way.

This training with lipstick knives can have tremendous value but falls short of the real stress inflicted experiences. Because at the marking knives the feedback comes later after the attack is over when you look at your arms and see the paint. With the Shockknife® the feedback is instantaneous, you know right away when you've been "cut" and despite the pain, you keep going.

How real is your training?

The Shockknife® is the only training knife that can replicate the same "acute stress" as a real knife by providing instantaneous biofeedback just like a real weapon. The Shockknife® is an ingenious balance between safety and performance. The composite blade is incapable of cutting, but instead delivers a localized shock that causes pain, but not serious injury or incapacitation.

At its highest setting the Shockknife® delivers up to 7,500 volts and less than 1 milliamp. The Shock Activator switch allows the user to control when the shock is delivered.

Advantages:

- Biofeedback Tool
- Stress Exposure Training
- Cut Location Indicator
- Stress Inoculation Tool
- Realistic Research
- Reduced Liability

**ASP® TRAININGS**

COURSE OVERVIEW

ASP Tactical Police Baton (ABC Program)

This course is like no other because it provides you with useful defensive skills in all 3 zones of defense, especially for close quarter battles (CQB). It relies heavily on practical hands-on applications and is intended for first responders who want instruction in the proper uses of straight batons (expandable or rigid) used for self-defense and subject-control for escort and handcuffing.

Using a comprehensive learning and dynamic hands-on curriculum, first-responders will learn how to utilize a straight baton, which is one of the most useful less lethal technologies on the duty belt, in direct and/or transitional ways for overcoming subject resistance through strikes, jabs or blocks and establish practical anatomical control over a subject for the purposes of escort and/or handcuffing.

DURATION

1/2 Day Course - 4 Hours

ELIGIBILITY

This courses are open to sworn law enforcement and active security professionals.

Start of the courses, if will be sufficient number of candidates.

ASP Tactical Handcuff (ABC Program)

Proper Training in the use of handcuffs is vital to officers. Handcuffs are among the most often used tool by officers, yet training is severely lacking.

Studies show that over 67% of resistance by subjects occurs after the first handcuff has been applied. All too often the result is injury and/or death to either the officer or subject.

This four hour Handcuffing Certification course is the most complete and innovative handcuffing course in the country. The techniques presented are practical and effective.

Topics to be covered include the safest approach and positioning for handcuffing, handcuffing resistive subjects, removing handcuffs, and the use of various type of cuffs, among others.

DURATION

1/2 Day Course - 4 Hours

ELIGIBILITY

This courses are open to sworn law enforcement and active security professionals.

Start of the courses, if will be sufficient number of candidates.

**Advanced ASP Baton and Handcuff - Law
Enforcement & Security Only**

TCCS - TACTICAL CLOSE COMBAT & SELF- DEFENCE SYSTEM

Who needs this training?

Our TCCS training and seminars/workshops are open for those in the public and private sector where it is necessary to his/her work or who only would like to defend themselves or their family members from an attack or similar situations on the streets and other places.

PROGRAM SUMMARY

The Tactical Close Combat System is not a part of any self-defence style or martial arts branch and it is not just a martial art, but an independent realistic defensive, tactical system, which in addition to melee and armed defense contains the complex tactical and mental preparation of special police and military units, safety experts, bodyguards.

The goal was to create a self-defense and combat method and tactical system, which when practiced can very quickly lead to the acquirement of knowledge useful in real life and to give an effective answer to most problems, independently of its user's physical condition. That's why its basics are assembled from the most effective military close combat styles like Krav Maga, Gemart, Kapap, Systema, Jutse Kyagsul and elements from other martial arts like Dim Mak, Kung fu, Ju Jitsu, Aikido, etc.

Close combat techniques can be used in one's job, whether he is a policeman, a soldier, a bodyguard or a security guard, but they're also perfectly useful in civil -

ian street defence. The close combat techniques of the TCCS were originally meant for armies and government forces, so they can handle armed situations, but nowadays they're not just part of military, law enforcement and personal protection trainings, but able to satisfy civilian needs as well because of the already mentioned reasons!

The TCCS system and its basics were developed by a small group of law enforcement special task force professionals, bodyguards, and leading educators, instructors, specially trained active and retired agents, policemen and soldiers from elite forces all over the world.

GENERAL TOPIC OF OUR SEMINAR

- Law Enforcement
- Ladies Self Defence
- Practical Self Defence to the public
- The use of daily tools for Self Defence
- Safety at home and safety in your car
- Special Course of Knife fighting (only for Security Personals and Black Belts)
- Tonfa, Police Baton
- Kubotan
- The use of acupressure points in the real self-defence situation
- ASP Tactical Handcuffs and Baton RedMan Training

DURATION

Daily training sessions and weekend seminars

TCCS - Tactical Close Combat & Self-Defence System

TACTICAL HOUSE AND „EXTREME STRESS PROGRAM“

Who needs this training?

Originally this program was made for elite law enforcement professionals, for police, military and close protection officers and agents but it gives a big help for the training of civilian security operatives as well.

PROGRAM SUMMARY

This program is based on a hard psychological base, and has been designed for elite forces, FBI agents, etc.

All the exercises are recorded by cameras and after each exercise the tapes are analysed, reviewed and corrections suggested.

During the trainings we use a specially designed building, divided by rooms and corridors, the 'Tactical House'.

The designs of the rooms are created based on the requirements of the contractor and the type of the training. In this way each group may focus on their specific life situations applied in a training exercise.

For the training we use a specially designed simulation weapon. This weapon looks like, feels like, and works like the real one, the only difference is the bullets - made by plastic - which contains paint.- not be confused with the paintball or airsoft.

With the combination of environment, the program and the special weapons used, we create an extreme

stress level situation where we can see each individual personal reaction in each situation.

Such knowledge and experience gathered this way is deeper, lasts longer and in real life situations are much more functional than any other.

DURATION

One to five days .

REQUIREMENTS

Must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 12-15 students per program.

DATE

If a sufficient number of candidates

FBI Mental-tactical Stress Training

BOMB THREAT AWARENESS & SEARCH PROCEDURES

Who needs this training?

This course aims to give the participants a clear understanding of how to reduce the threat of bombs and other devices as well that the threat or after attacks who know and are able to apply the primary measures of crisis situations.

It's an ideal training for First Responders, Security Directors & Managers, Loss Prevention & Risk Managers, Health & Safety Officers, All Security Staff and Specialists and Emergency Managers involved in Security Crisis Management. Executives and Business Owners, who are responsible for Security Planning, Operations, Decision Making, or who are part of a Crisis Management Team Would also benefit from attendance.

MANDATORY UNIT:

- Types of threat/ Threat assessment
- Up to date national security information / State of alert
- Threat perpetrators
- Arsonists / Terrorists / Hoax Callers
- Dealing with suspect packages and suspect mail
- Dealing with bomb threats
- Appropriate actions and procedures
- Search procedures for Receptionist / Front desk staff
- Carrying out effective searches

MANDATORY UNIT (Continue):

- Improving observation skills
- Practical approaches to searching hand luggage, bags and briefcases
- What to do in the event of discovering a suspicious object/device
- Evacuation of premises
- Evacuation plans and procedures
- Working with emergency services
- Delegate Assessment of understanding

DURATION

1 delivered days over

REQUIREMENTS

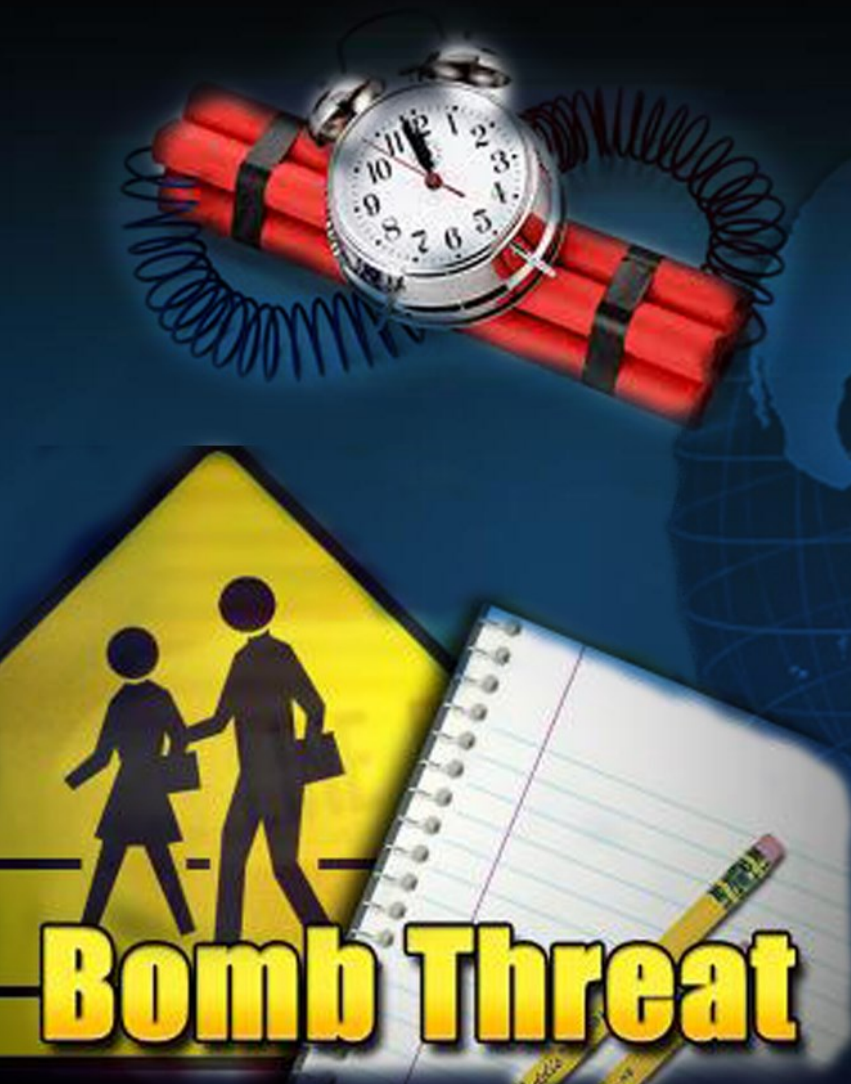

That we will require a copy of your current Spectator Safety certificate to check you meet the requirements of the course as well as must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 8-10 students per program.

DATES

If a sufficient number of candidates

Bomb Threat Awareness & Search Procedures

EMBASSY AND RESIDENTIAL PROTECTIVE**Who needs this training?**

The course is specially for persons and protective units who work in the diplomatic corps. The course is also suitable for employees in the Embassy protection working with security or others who wish to improve their understanding of diplomatic security and embassy protection.

MANDATORY UNIT:

- Crime Prevention strategies and policies in the Residential protection
- Organization System of Residential Protection
- protective measures
- Responsibilities of Residential Protection
- Methods of Residential Protective
- Methods of guarding
- Planning and management criteria of the Residential Protection
- Guards' eligibility and activity
- RST's general activity
- Guards' general rights and rules of conduct
- Drafting criteria of duty management
- Diplomatic protocol
- Conflict management
- Costumer Service
- CCTV Systems

OPTIONAL UNITS:

- Bomb threats, and primary procedures
- EOD basic Knowledge and bomb Search methods
- Data and Information protection
- Methods of person and luggage control
- Basics of Personal protection
- Basics of Event security
- Emergency First aid
- Firearms

DURATION

Whole course duration 10 days. 8 delivered days followed by work based assignments, portfolio building and work place assessments.

REQUIREMENTS

That we will require a copy of your current Spectator Safety certificate to check you meet the requirements of the course as well as must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 8-10 students per program.

DATES

If a sufficient number of candidates

Embassy and Residential Protective

SECURITY DRIVING

Who needs this training?

This course is designed for those individuals who are vulnerable and under the threat of a terrorist or organized criminal attack while in transit. The training emphasizes the proactive approach to protection. The areas that will be covered are Terrorist Operations & Surveillance Detection; consisting of past terrorist/criminal attacks, lessons learned, route analysis and surveillance detection.

PROGRAM SUMMARY

Security Driver Training is designed to improve the car control skills of licensed drivers at any experience level. The student learns about vehicle dynamics and the importance of understanding “vehicle language”. This is accomplished through realistic exercises such as straight-line emergency (Threshold) braking, braking-in-turns, serpentine, skid pad, swerve-to-avoid, and off-road recoveries. The student will also learn about ocular driving, the use of focusing your eyes on where you want the vehicle to go. Vehicle control skills will be applied to technical driving which requires the student to accurately read and negotiate a road way at elevated speeds. It will teach the driver how to use the vehicle as a means of escape or as a weapon for survival. Students will learn the use of emergency backing, “Y” and “J” turns, precision intervention technique (PIT), barricade breaching (RAM), driver down (passenger side driving) and how to recognize an attack. Students will learn what a car is capable of and most importantly, their own limits.

We will emphasize the importance of being mentally prepared in order to be able to react. The training is brought together through realistic situational exercises where the student comes under different types of attacks and is challenged to react. Personal Protection Training provides a more in-depth individual protective training. Students learn how much protection an average vehicle can or cannot provide from direct fire weapons. Students will learn about improvised explosive devices (IED) and how to search a vehicle in a systematic method. They are also trained in ways to evacuate a vehicle which is disabled and under attack.

DURATION

1 to 5 days.

REQUIREMENTS

That we will require a copy of your current Driving Licence to check you meet the requirements of the course as well as must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 8-10 students per program.

DATES

If a sufficient number of candidates

Security Driving

SURVEILLANCE/COUNTER SURVEILLANCE TRAINING PROGRAM

Who needs this training?

The course has been specifically designed to meet the requirements of both men and women wishing to further their career in Surveillance and the Security Industry. Students will learn static, mobile and technical surveillance techniques, which will then be assessed in a training environment, building up to the 'live exercise' in London. Students will also learn about the law and legislation currently in place, and how to gain evidence which would be able to lead to a conviction.

This course is an excellent complement to the Close Protection course as many companies deploying CP teams require the operatives to be multi-skilled in both areas. By obtaining the additional Level 3 Surveillance qualification, we believe this would greatly increase your chances of employment within the security sector.

COURSE CONTENT

- Roles and responsibilities of Surveillance Operative
- Stages of surveillance
- Static surveillance
- Mobile surveillance
- Technical surveillance
- Planning and briefing
- Intelligence gathering and collating
- Law and legislation
- Surveillance awareness
- Equipment and photography

The course is designed for teams and individuals who wish to maintain and improve their skills in surveillance and surveillance detection. The course will consist of several small assignments that reflect the assignments our operational teams have carried out over the years. This is one of the most effective ways to improve your skills and get some more experience in the subject.

DURATION

Two to five days.

REQUIREMENTS

That we will require a copy of your current Spectator Safety certificate to check you meet the requirements of the course as well as must be 18 years of age and should have a good understanding of the English language.

CANDIDATES

In order to maintain quality of instruction and ensure that candidates receive personal attention, our course intake is restricted to 8-10 students per program.

PSA MEMBERSHIP

PSA MEMBERSHIP PROGRAM

From this year, started operations in the new international membership department at the PSA Academy™. The membership is open for everybody who working in the private or government security industry.

MEMBERSHIP FORMS

- Student
- Individual
- Supporting
- Associate

WHO CAN JOIN?

To qualify for membership, you must be a student of protective science or security professional who working in the private security industry different areas or law enforcement, police and Military sector. And your work must represent an unusually high level of quality and distinction.

If you are an leader or CEO of the professional organisation, federation, foundation or company in protective, security or training area and to have worked in their fields for a certain number of years then we will be open to cooperation and you may be considered to join as an Associate or Supporting member.

Some branches (including Instructor, Teacher, Expert or Consulting and others) also expect new members.

JOINING PROCESS

The Individual Applicant should enclose a short CV as well as copy of certificate of his/her qualifications and color photo of themselves. The students of Security and Safety Science should enclose a photocopy of their international or national student card and certificate from your Educational Institute, College, University or Academy.

Those companies, professional organisation, federation, foundation or other which are wish to join or would like working together with us as Supporting or Associate members there the President or General Manager of the Corporation has to sign a "Letter of Intent" or an "Application for Membership", which has to be written in the official languages of the PSA Academy Association English.

A short summary of the Corporation and a copy of the official registration of the Corporation should be enclosed, additionally a short summary of the Corporation or Organisation and its top management in order to let us be informed about our potential members.

After PSA receives all necessary documentation and fees it takes about a month to process the application and another month to receive the agreement of the Board on membership division.

If you have any questions then don't hesitate to contact us. For more detail inquire about by specified email address. membership@psa-academy.org.

PSA RESUME

PSA Academy™ is a training provider that led and managed to develop an effective service. It has a defined, measurable aims and objectives. These are represented in its mission as "One stop security provider who provides its costumers with professional, quality assured services".

All services provided at PSA Academy™ enjoy the following characteristics:

- The service is defined in a way that our clients are clear about what they expect.
- The service provided is delivered effectively to meet its aims objectives and based on needs analysis tools and techniques.
- Service provided is impartial and objective.
- Appropriate options are available for PSA clients which can be explored easily and understood. Hence, clients are responsible for making their own decisions.
- Clients are provided with and supported to use appropriate resources including access to technology.

EXAMPLES OF SERVICES THAT WE CAN OFFER.

Our services include, but not limited to, all security courses from basic ones like Security Guards, Spectators safety, Door supervisor etc. In advanced security sections close protection, diplomatic mission and embassy protection, etc. is also available at both local and international levels.

Courses that are related directly to security is available, the range include Health and Safety, first aid, security driving and others courses.

THE LAST WORD

Once your needs are based on quality assured services, dedication and perfect knowledge transfer processes, you are at the right one stop provider. Planning, designing, conducting, evaluating and reporting a comprehensive process is available at PSA Academy™. It is the place that you will rely for to prosper and proffress.
